Friends,

As you know, Push Digital is a political internet firm. We pride ourselves in innovating politics, but we don't want to stop there. That's why we're starting the Push Back program. We want to give back to the community by helping people and organizations that are making a difference.

We hope to partner with South Carolina nonprofits by learning about their mission and offering our expertise to help achieve their goals. We would like to focus on a different local charity or cause each month, and we're currently accepting [applications](#) on our website.

We need your help!

If you are involved in or know of a South Carolina based charity or cause that could benefit from a day of collaboration in website design, development, and/or hosting, fundraising and social media relations, please forward along the [application](#). We're excited to give back to the community and look forward to working with locals who are making a difference.

Sincerely,

The Push Digital Team
