Subject: Affordable Care Act ~ Website email from Daniel Haggerty

Lt. Governor Bryant, Gentlemen, I'm writing to express my opinion on the repeal of the democrat's ACA; I'll be brief. For years you have publicly paraded your disdain for this law and repeatedly made unanimous calls for its repeal, only to be thwarted by democrats. Now that you have the proverbial hammer I encourage you not to balk at this task. Or, rather, you best not balk! We see through this hypocrisy of voting for an issue when you know it will be vetoed and reject it outright! Nuf said. Other than that, I strongly encourage everyone of you to stay on OFFENSE 24/7/365x4 until every last vestige of 60+ years of liberalism is erased forever! Do not shy away from this task; this is America's time and we will support you in this endeavor. Sincerely, Dan and Carol Haggerty Daniel Haggerty
