To The Governors of the States of Nebraska, Arkansas, Montana, North Dakota, South Carolina, South Dakota and Wyoming Michigan, Ohio and Kansas:

In my 60 years on this planet I have learned several disturbing things:

- 1) Hate mongers are IMPOTENT without their hate
- 2) There is NO room in this world for hate, prejudice, discrimination or intolerance
- 3) The most insidious form of child abuse is teaching children to hate.

Now you show your hate, prejudice and approval for discrimination and child abuse by suing this nation over the orders the permit Transgenders to utilize the rest room with their sexual identity. Are you out of your minds? First of all, there are kids trying to resolve their sexual identity which may be contrary to the defect (yes, birth defect a.k.a disability which is covered by the American's With Disabilities Act) of their birth.

You are treating them as if they are predators and not simply a woman or a man or a girl or a boy who needs to use the restroom. Anita Bryant was a hate monger who lied to the nation and made the small minded and ignorant believe the lies she told. She made the ignorant and apparently you believe the lie.

These kids especially need to come to terms with their true selves. You are psychologically DAMAGING these kids. Are you aware of how many Transgender kids were never able to

come to terms with who God actually made them? Many are DEAD now. I don't know how you can feel comfortable placing any kid in a position where they feel their only out is suicide. Will you take responsibility for each death? For each child damaged by your actions?

I ask that you realize what you are truly doing – an act of hate mongering with the intent of hurting Transgender children and citizens. And STOP. Withdraw your action of hate.

I am a woman who has been in the restroom with another woman who simply happened to be Transgender. I was not raped, or subject to the actions of a predator. It was just another gal in the rest room. PERIOD.

**STOP YOUR HATE MONGERING. IT HAS NO PLACE IN AMERICA!**

Sincerely,

*Stacey Crosby*
