And just like that, peak fall foliage has arrived across South Carolina! There's still time for a trip to the Upcountry or the midlands to see the beautiful colors of all. Check out Ranger Scott's report before you go: <https://southcarolinaparks.com/see-and-do/fall-foliage>

Rachel Nash We're having an unusually beautiful one this year.

Jason Craig Matthew Graves i heard some trails were closed bc of trees down from recent storms a few weeks ago. I could be wrong, but you might wanna call and ask. 🤖♂

Matthew Graves Jason Craig, I heard the same, but we've got youndmg children. Not going to be upset if we need to do an easier trail that's open. Thanks.
