Friends,

A friend sent this to me. The same thing happened in Wisconsin with Governor Walker until the people the walk outs represented left messages on their telephones. When they saw what the voters were doing, some of them started to return and the rest came along shortly. Go to it folks if one of the 68 are representing you give them a phone call. You don't even have to have voted for them, they still have a responsibility to represent your interests.

I don't know about you but at the inauguration President Trump was putting the controls back in our hands. He can't do it alone.
