Message:

Mrs. Haley. As a 50 year old lifelong resident and taxpayer of this great state, my hopes are the confederate flag will be removed from statehouse grounds during your term. It's an embarrassment and does not represent the majority of South Carolinians in 2015. I have always supported the flag, however, in light of recent Charleston events, my opinion has changed as I have come to understand how offensive it may be. Please consider this isn't the 'old south' and we aren't Mississippi (outside of our public education system). It's time to move forward. As a Haley supporter, I hope you share my views. _a house divided cannot stand.
