Subject: Repeal and rescind ~ Website email from Daniel Haggerty

Lt. Governor Bryant, Gentlemen, I'm writing to express my heartfelt conviction that you must repeal the affordable care act and permanently rescind federal money from planned parenthood. The reasons are clear, logical, and reasonable and you must proceed with all haste to accomplish this. The time for this is NOW and the people have spoken too many times about this. And while you are at it, double down on offense, every single day you go to work to represent us. With all sincerity, Dan and Carol Haggerty Daniel Haggerty
