MINUTES

DEPARTMENT OF TRANSPORTATION  
OF  
SOUTH CAROLINA

July 24, 2003

\*\*\*\*

The regular monthly meeting of the Department of Transportation Commission was held at the North Myrtle Beach Council Chambers in North Myrtle Beach, South Carolina at 10:00 a.m. on July 24, 2003. In compliance with the Freedom of Information Act, the news media was advised in writing of the time, date and place of this meeting.

Present

Tee Hooper, Chairman, Presiding  
Howell Clyborne  
John N. Hardee  
B. Bayles Mack

Absent

Robert W. Harrell, Sr.  
Eugene C. Stoddard  
J. M. "Moot" Truluck

Also Present: Elizabeth S. Mabry, Executive Director

SECTION 1: On motion of Commissioner Mack, seconded by Commissioner Clyborne, the Commission unanimously passed a motion amending the January, 14, 2003 Commission Minutes to reflect the passing of a resolution naming the "B. Hicks Harwell Highway" in Florence County. This action was inadvertently omitted from the published minutes.

SECTION 2: On motion of Commissioner Mack, seconded by Commissioner Clyborne, the Commission unanimously passed a motion approving the June 27, 2003 Commission Minutes with a correction to Section 20 to read as follows:

*SECTION 20: On motion of Commissioner **Mack**, seconded by Commissioner Harrell, the Commission unanimously passed a motion approving the following requests of the Invitations and Resolutions Committee:*

SECTION 3: On motion of Commissioner Hardee, seconded by Commissioner Mack, the Commission unanimously passed a motion excusing the absence of Commissioners Harrell, Stoddard and Truluck.

574  
A

SECTION 4: The Commission unanimously passed a motion ratifying its action of May 22, 2003 with regard to the Richland County Transportation Committee's request to issue bonds. The motion is ratified to include the approval of the resolution requesting the Budget and Control Board to issue bonds on behalf of the Richland County CTC. The Resolution is shown in detail in the Appendix.

SECTION 5: The Commission unanimously passed a motion approving the sale of surplus right of way property, as shown in detail in the Appendix.

SECTION 6: The Commission unanimously passed a motion approving the request of the Department to advertise, select and negotiate with a consulting firms to develop a Tiered EIS, as shown in detail in the Appendix.

SECTION 7: The Commission unanimously passed a motion approving the request of the Department to advertise, select and negotiate with consulting firms to develop a Public Outreach Survey Team (POST) facility, as shown in detail in the Appendix.

SECTION 8: The Commission unanimously passed a motion authorizing the Department to acquire the services of an electric utility audit and rate analysis consultant to provide a comprehensive utility bill and rate review audit, as shown in detail in the Appendix.

SECTION 9: The Commission unanimously passed a motion authorizing the Department to negotiate and enter into an agreement with a consulting firm to provide a comprehensive analysis of payments to vendors in the course of normal business, as shown in detail in the Appendix.

SECTION 10: The Commission unanimously passed a motion approving the request of the of the Department to use \$115,000 in federal statewide planning apportionment and \$25,000 in state matching funds for fiscal year 2003 for the Mass Transit office 20 year Transit Vision Study, as shown in detail in the Appendix.

SECTION 11: The Commission unanimously passed a motion approving the action of the Department in removing roads from the State Highway System, as shown in detail in the Appendix.

SECTION 12: The Commission unanimously passed a motion approving the action of the Department in correction the description of sections of State Highways previously added to the State Highway System, as shown in detail in the Appendix.

SECTION 13: The Commission unanimously passed a motion approving the action of the Department in rescinding it's action in adding roads to the State Highway System, as shown in detail in the Appendix.

SECTION 14: The Commission unanimously passed a motion approving the action of the Department in adding sections of roads to the State Highway System, as shown in detail in the Appendix.

SECTION 15: The Commission unanimously passed a motion approving the action of the Department revising action taken at the May 13, 2003 highway letter, as shown in detail in the Appendix.

SECTION 16: The Commission unanimously passed a motion approving the action of the Department concerning projects in the highway letting of June 10, 2003, as shown in detail in the Appendix.

SECTION 17: The Commission unanimously passed a motion approving the action of the Department concerning projects in the highway letting of June 17, 2003, as shown in detail in the Appendix.

SECTION 18: On behalf of the members of the Commission, Commissioner Mack presented the resolution approved at the June 27, 2003 meeting naming the "L. Morgan Martin Interchange" to former Commission Chairman Martin, and shown in detail in the Appendix.

SECTION 19: On motion of Commissioner Clyborne, seconded by Commissioner Hardee, the Commission unanimously passed a motion approving the 2004-2005 budget, as shown in detail in the Appendix.

SECTION 20: There being no further business to come before the Commission, the meeting was adjourned at 11:15 a.m.

---

Tee Hooper, Chairman

## **Appendix**

Department of Transportation Commission

Meeting of

July 24, 2003

\*\*\*\*

1. File 26.988 / Road S-31 / Horry County

During construction of improvements on Road S-31, under File 26.377 in Horry County, near the City of Loris, the Department acquired right of way for Road S-31, by Condemnation from J. G. Gore dated July 7, 1959, and originally accepted into the South Carolina Department of Transportation's Highway System through the Construction Act of February 19, 1959.

A request was received from the adjacent landowner asking to purchase the two small sections of abandoned road. The request was circulated to the Engineering sections to determine if said parcels could be declared surplus. After review it was determined that the parcels were surplus to Department needs. Therefore, a Quitclaim Deed for approximately 0.64 of an acre of land to Herman C. Jones Investments, LLC was executed on May 2, 2003 in consideration of \$1,000.00.

2. File MSC 177 / SC Rte 116 / Beaufort County

The Department acquired approximately 15.98 acres of land used as a Borrow Pit under File MSC 177 in Beaufort County, near the City of Beaufort, by Title to Real Estate from L.F. Stone dated July 22, 1966.

The District Engineering Administrator of District 6, with concurrence of Management, determined that the Borrow Pit was no longer needed and should be liquidated from the Department's inventory. After receiving approval from the South Carolina Budget and Control Board, the property was marketed to the general public with signs, newspaper ads, and all necessary means to attract a qualified buyer. A bid sale was set up and consummated. The Grantee offered the highest acceptable bid above the appraised value of \$54,600.00. Therefore, a Quitclaim Deed for approximately 15.98 acres of land to Clarendon Farms, Inc. was executed on May 29, 2003 in consideration for \$82,000.00.

3. File 22.571 / US Rte 521 / Georgetown County

During construction of improvements on US Route 521, under File 22.571 in Georgetown County, near the Town of Andrews, the Department acquired right of way for US Route 521, by Title to Real Estate from Bob E. Ackerman dated July 8, 1997.

A request was received from the original landowner asking to purchase a small remainder of the property that had been acquired from him during the right of way acquisition. The request was circulated to the Engineering sections to determine if said parcel could be declared surplus. After review it was determined that the parcel was surplus to Department needs. Therefore, a Quitclaim Deed for approximately 0.38 of an acre of land to Bob E. Ackerman was executed on June 16, 2003 in consideration of \$4,000.00.

4. File 10.368A / Road S-62/75 / Charleston County

During construction of improvements on Road S-62/75 (Ashley Phosphate Road), under File 10.368A in Charleston County, near the Town of North Charleston, the Department acquired right of way for Road S-62/75 (Ashley Phosphate Road), by Condemnation from Beverly C. Salley & Bennie C. Easterling dated February 11, 2002.

During negotiations to settle a difficult acquisition case, the Department agreed to convey the small uneconomic remainder of Tract 174 to the adjacent property owners (Grantee) as partial payment for the new right of way needed for the above-mentioned project. Therefore, a Gratis Quitclaim Deed for approximately 0.208 of an acre of land to Norman Lubelsky & Joseph Lubelsky, Jr. was executed on June 24, 2003.

5. File 26.843 / SC Route 707 / Horry County

During construction of improvements on SC Route 707, under File 26.843 in Horry County, near the Town of Socastee, the Department acquired right of way for SC Route 707, by Quit Claim Deed from Horry County dated February 3, 2003.

As part of a legal settlement, an agreement was reached with the Department's legal counsel and Horry County to convey to the adjacent owner (Grantee) any remaining parcel of Luttie and Folly Road that was adjacent to the parcel now or formerly owned by Edward W. Edmonds, Jr. Therefore, a Gratis Quitclaim Deed for approximately 0.065 of an acre of land to Pamela Cook Edmondson was executed on June 24, 2003.

6. File 40.460 / Road S-1743 (Kortright Street) / Richland County

During construction of improvements on Road S-1743 (Kortright Street), under File 40.460 in Richland County, near the City of Columbia, the Department acquired right of way for Road S-1743 (Kortright Street), by the Construction Act dated November 15, 1956 and by dedication from the City of Columbia dated June 5, 1957.

A request was received by an attorney to clear the title for an encroachment. The request was circulated to the Engineering sections to determine if said parcel could be declared surplus. After review it was determined that the parcel was surplus to Department needs. Therefore, a Quitclaim Deed for approximately 0.003 of an acre of land to Susana M. Lanier was executed on June 24, 2003 in consideration of \$1,000.00.

7. File 10.368A / Road S-62 & S-75 / Charleston County

During construction of improvements on Road S-136 (Buncombe Road), under File 23.243A in Greenville County, near the Town of Greer, the Department acquired right of way for S-136 (Buncombe Road), by Title to Real Estate from Gloria M. Brown dated April 8, 1998 and from Frances W. McCullough by Condemnation dated June 1, 1998 at a cost of \$29,000.00.

A request was received from an adjacent landowner asking to purchase the remainders of several tracts of land adjoining his property. The request was circulated to the Engineering sections to determine if said parcels could be declared surplus. After review, it was determined that the parcels were surplus to Department needs. A bid sale was set up and the property was marketed to the general public with signs, newspaper ads, and all necessary means to attract a qualified buyer. An offer above the appraised value of \$40,000.00 was received from Eugene Barbare. Therefore, a Quitclaim Deed for approximately 0.5 of an acre of land to Eugene Barbare was executed on March 24, 2003 in consideration of \$41,777.77.

8. File 26.859 / Road S-215 (10<sup>th</sup> Avenue North) / Horry County

During construction of improvements on Road S-215 (10th Avenue North), under File 26.859 in Horry County, near the City of Myrtle Beach, the Department acquired right of way for Road S-215 (10th Avenue North), by Title to Real Estate from Myrtle Beach Farms Company, Inc. dated August 15, 2000 and by Title to Real Estate from Southern Copyroll Inc. dated August 17, 2000 and by Title to Real Estate from The City of Myrtle Beach dated August 15, 2000.

The Department received a request from the City of Myrtle Beach asking the Department to convey a detention pond, recently constructed as part of the Road S-215 (10<sup>th</sup> Avenue North) widening project. Because the City of Myrtle Beach plans additional improvements to the open ditches adjacent to the pond, the city has further agreed to take over the maintenance of the subject parcel. Therefore a Gratis Quitclaim Deed for approximately 1.51 acres of land to The City of Myrtle Beach was executed on June 30, 2003.

9. File 26.139B / SC Route 31 / Horry County

During construction of improvements on SC Route 31, under File 26.139B in Horry County, near the City of Socastee, the Department acquired right of way for SC Route 544, by Title to Real Estate from Donald R. Hanson and Ethel P. Hanson dated October 24, 2002.

Because of a new control of access that was placed along sections of SC Route 544 under File 26.139B, Tract 112 was landlocked. To provide the Grantees (owners of Tract 112) adequate access to their property, the Department agreed to convey to the Grantees the remainder of Tract 113. This conveyance prevented the need to acquire Tract 112 in its entirety and relocate the existing tenants. Therefore, a Gratis Quitclaim Deed for approximately 0.19 of an acre of land to Mack McCormick, Jr. and Vera McCormick, a/k/a Vera Rabon McCormick was executed on June 30, 2003.

10. File 11.688 / SC Route 5 / Cherokee County

During construction of improvements on Road S-260 Relocation (Dickinson Road), under File 11.688 in Cherokee County, near the Town of Blacksburg, the Department acquired right of way for Road S-260 Relocation (Dickinson Road), by Title to Real Estate from Bobby Gene Westmoreland dated December 12, 2002.

During negotiations to settle a difficult acquisition case, the Department agreed to convey a small portion of the abandoned Road S-260 (Dickinson Road) and the small uneconomic remainder of Tract 24 to the adjacent property owner (Grantee) as partial payment for the new right of way needed for the relocation of Road S-260 (Dickinson Road). Therefore, a Gratis Quitclaim Deed for approximately 0.14 of an acre of land to Hayes M. Faulkner AKA Permelia Hayes M. Faulkner was executed on June 30, 2003.

11. File 42.170A / SC Route 290 / Spartanburg County

During construction of improvements on SC Route 290, under File 42.170A in Spartanburg County, near the Town of Duncan, the Department acquired right of way for SC Route 290, by Condemnation from William S. Kirby and Barbara L. Kirby dated April 2, 1993 and from Edna Sexton Smith by Condemnation dated April 13, 1993 at a cost of \$13,661.00.

Upon project completion the Department had a 1.53 acre parcel of surplus land. The property was marketed to the general public with signs, newspaper ads, and all necessary means to attract a qualified buyer. Upon the sale of the surplus parcel it was discovered that the adjacent landowner had encroached onto the land. To resolve the issue the buyer agreed to allow the adjacent owner to purchase the small parcel of land that was encroached upon from the Department. Therefore, a Quitclaim Deed for approximately 0.06 acres of land to Speedco was executed on March 11, 2003 in consideration of \$15,000.00.

12. File MSC 27/ Road S-26 (Wappoo Road) / Charleston County

In order to provide better maintenance service, to the City and County of Charleston, the Department acquired property for a new Maintenance facility known as MSC 27, from Marzie G. Crull by Deed dated November 15, 1926 and from Marzie G. Crull by Deed dated November 30, 1936, and from Marzie G. Crull by Deed dated April 1, 1946..

The District Engineering Administrator of District 6, with concurrence of Management, has determined that the Wappoo Road Maintenance Site is no longer needed and should be liquidated from the Department's inventory. After receiving approval from the South Carolina Budget and Control Board, the property was marketed to the general public with signs, newspaper ads, and all necessary means to attract a qualified buyer. A bid sale was set up and consummated. The Grantee offered the highest acceptable bid above the appraised value of \$610,000.00. Therefore, a Quitclaim Deed for approximately 3.70 acres of land to Graham A.M.E. Church was executed on June 24, 2003 in consideration of \$850,000.00.

Recommendations – July, 2003

**Request for Environmental Services for Development of Environmental  
Documentation for SC Route 9 Widening from I-95 in Dillon County  
To Green Sea in Marion County**

The Department requests the Commissions approval to advertise, select and negotiate with consulting firms to develop a Tiered EIS. The Tier 1 draft EIS will evaluate the entire alignment from I-95 to Green Sea and will consist of a broad based environmental screening, supplemented with reconnaissance surveys and random ground truthing. The final EIS would result in a preferred corridor (about 2000 feet wide) for the entire route (I-95 to Green Sea) and also provide more detailed environmental analyses for the section from US Route 76 to Green Sea.

A Record of Decision (ROD) would be issued for the entire route. The ROD would authorize right of way (ROW) for the section from Green Sea to US Route 76, while specifying that future segments would require Tier II environmental documents (other EIS's, EA's, or even possibly CE's) when funding became available.

Based on current and projected workloads, the Department does not have sufficient staff to complete this document in a timely manner.

\*\*\*\*\*

**Request for Professional Engineering Services for  
Development of a Public Outreach and Survey Team**

The Department requests Commission approval to advertise, select, and negotiate with consulting firms to develop a Public Outreach and Survey Team (POST) to facilitate and initiate new and innovative methods to gather public opinion on road issues. The Public Outreach and Survey Team will provide the SCDOT with a greater sense of the public's concerns and desires related to transportation infrastructure.

The methods utilized would become a component for all SCDOT projects, but special attention should be paid to several areas of concern and need. These areas include, but are not limited to, context sensitive design customer surveys, bicycle and pedestrian surveys, MPO/COG long range plan public comment, and identified critical projects that require specific individual attention.

The expected costs for these services is approximately \$4 million over the next several years, depending upon the extent of utilization. Based on current and projected workloads, the Department does not have sufficient staff and expertise to develop the POST teams.

\*\*\*\*\*

Recommendations – July 24, 2003

**Electric Utility Audit and Rate Analysis Services**

The Department requests Commission approval to acquire the specialty services of an electric utility audit and rate analysis consultant to provide a comprehensive utility bill and rate review audit. The potential for both short and long term savings is significant. Because of the variety of rate structures now available, and the fact that the Department has literally thousands of individual accounts, the process is complex and requires special expertise. No cash outlay is required due to the fact that the successful consultant will be paid on a contingency basis – a percentage of the bona fide savings identified.

\*\*\*\*\*

**Request for Accounts Payable/Disbursement Consulting Services**

The Department requests Commission approval to negotiate and enter into an agreement with a consulting firm to provide a comprehensive analysis of payments to vendors in the course of normal business. The Department processes approximately 45,000 vendor invoices yearly and vendor files of thousands of vendors. This type of review of files with sophisticated proprietary software is not possible with current resources. This service is intended to search for misapplied, duplicate, over-payment or other erroneous fund transactions. The services are paid on a contingency basis; only a percentage of what the company recovers in the form of refunds or usable credits. The net outcome for the Department will be an increase in available funds.

\*\*\*\*\*

Recommendations – July, 2003

**Proposed Scope of Work for State Mass Transit Funding Program**

The Mass Transit office is proposing to use \$115,000 in Federal Statewide Planning apportionment and \$25,000 State Matching Funds for fiscal year 2003 for the Mass Transit Office 20 year Transit Vision Study. The study will focus on both short-range and long-range plans that connects all modes of public transportation across the state, including intercity bus, light rail, commuter rail and intercity high-speed passenger rail.

Total project allocation will be \$140,000.

\*\*\*\*\*

# **Proposed scope of work for a State Mass Transit Funding Program**

## **BACKGROUND**

A vision carrying mass transit forward into the next twenty years of the 21<sup>st</sup> century is needed to assist decision makers in formulating plans for meeting the mobility needs of South Carolinians who rely on mass transit. An overall vision is needed to give focus to both short-range and long-range plans for mass transit. Those charged with developing the plans that will carry mass transit forward as a viable industry need to share a common vision as they face multiple challenges to their planning efforts. Other stakeholders want to ensure that mass transit maintains its increasingly important role in the state's future quality of life and economic vitality.

For these reasons and others, it is important that a mass transit vision be articulated. A vision that is not necessarily cast in stone but one that is dynamic so that it may be attained even in uncertain times of fluctuating resources, priorities, and needs. It must be a vision that embodies all the short and long-range plans of the state's transit operators and transportation planners as well as any other stakeholders that have a vested interest in seeing mass transit reach its full potential in South Carolina. It must be a vision that connects all modes of public transportation across the state, including intercity bus, light rail, commuter rail, and intercity high-speed passenger rail into a seamless transportation system. Such a vision must also be grounded in fiscal realities; taking into account the very real constraints imposed by the funding streams that are available to all of the various modes that are a part of the public transportation industry.

Out of such a vision should come a "blueprint for the future" of mass transit in South Carolina. A blueprint that is visionary but is also realistic and attainable that will lay the groundwork for all future decisions regarding this very vital asset of the citizens of our state.

## **SCOPE OF WORK**

**SPECIFIC CONTRACTOR'S TASKS:** The specific responsibilities of the contractor will be as follows:

1. Conduct a review and analysis of the strategic planning efforts of those transit operators and other mass transit stakeholders such as the Mass Transit Office, COGs and metropolitan planning organizations (MPOs) to determine and develop common themes and agreement as to where the mass transit industry in the state should be in twenty years.

2. Conduct opinion surveys and focus groups to gain a perspective of the public's vision of what mass transit can and should be for the citizens of the state and incorporate this into the long-range vision for mass transit in South Carolina.
3. Develop a mass transit long-range plan that includes coordination among public transit and human service agencies that is futuristic and achievable in terms of the state's projected financial resources, human resources and political will.
4. Develop funding projections for both the short and long-term that will provide the tools to enable the state's transit operators to achieve the goal of a seamless and interconnected, intermodal mass transit system for the state.

Recommendations 7-24-2003

**REMOVAL OF ROADS FROM STATE HIGHWAY SECONDARY SYSTEM**

It is recommended the Commission remove the following sections of road from the State Highway System as follows:

Addition Number

Description

**Bamberg County**

Portion of 81 ✓

Section of road (dirt section) from Road S-59 southwesterly to pavement  
- approximately 1.06 miles  
(Designated S-81)  
(Added to System 12-16-1948)  
(Portion Removed 1-21-1982)

**Note:** The above road removal is requested by Bamberg County who will accept maintenance responsibility for this section of road and it qualifies under the Abandonment of Right-of-Way portion of the law.

**Charleston County**

1930 ✓

Hale Road northeast of Mt. Pleasant from Rifle Range Road southeasterly  
- approximately 0.32 mile  
(Designated S-1930)  
(Added to System 3-21-1974)

2084 ✓

Twilight Lane in a subdivision northeast of Mt. Pleasant from Road S-1930 southerly, including a turnaround  
- approximately 0.16 mile  
(Designated S-2084)  
(Added to System 9-16-1976)

**Note:** The above road removals are requested by the Town of Mt. Pleasant who will accept maintenance responsibility for these sections of road and they qualify under the Abandonment of Right-of-Way portion of the law.

CORRECTION OF DESCRIPTION OF STATE HIGHWAYS

It is recommended the Commission correct the description of sections of State Highway previously added to the State Highway System to read as follows:

Addition Number

Description

Anderson County

- 1161 ✓ Section of road in Starr from S. C. Route 412 northerly to a point on Road S-104 approximately 0.05 mile west of S. C. Route 81 - approximately 0.68 mile  
Designated S-1161  
Added to System 7/19/01  
Note: The above revision is recommended to show the new beginning point as S. C. Route 412 (old ending point S. C. Route 81). This also eliminates an overlap on S. C. Route 412. A new addition is being proposed for the section from S.C. Route 412 to a point short of S. C. Route 81. This is a result of the construction under File 4.150A.

Laurens County

- 165 ✓ Victoria Street in Laurens from Road S-42 (Harper Street) easterly to Road S-165 (Sullivan Street) - approximately 0.06 mile (Designated S-234); also Sullivan Street in Laurens from Road S-234 (Victoria Street) northerly to a deadend at the railroad tracks - approximately 0.75 mile (Designated S-165)  
Total Length approximately 0.81 mile  
Added to System 4/19/56  
1<sup>st</sup> Revision 9/20/90  
Note: The above revision is recommended to show the ending point for Road S-165 as a deadend at the railroad tracks rather than U. S. Route 221, as constructed by File 30.626.
- 560 ✓ Section of road from Road S-47 approximately 0.6 mile southwest of Road S-6 northwesterly and southwesterly to end of road at point 0.04 mile northeast of U.S. Route 25 - approximately 0.53 mile  
Designated S-560  
Added to System 7/15/65  
Note: The above revision is recommended to show the new ending point and mileage change after construction by File 24/30.474.

Recommendations 7/24/03

RESCIND ACTION ADDING ROAD TO STATE HIGHWAY SYSTEM

It is recommended the Commission rescind its action adding the following section of road to the State Highway System as follows:

Addition Number

Description

Chesterfield County

1072

Grant Street adjacent to the Town of Patrick extending from Road S-583 (McLean Street) northerly to Road S-208 (Griggs Street) – approximately 0.2 mile

Designated S-1072

Added to System 9/6/03

Note: This road is being removed by the CTC due to right-of-way difficulties.

ADDITIONS TO STATE HIGHWAY SYSTEM

It is recommended the Commission add the following sections of road to the State Highway System as follows:

Addition Number

Description

Anderson County

1163 ✓ Section of road (section of old location of S-1161) from a point on S. C. Route 412 southeasterly to a deadend - approximately 0.11 mile  
To be designated S-1163

Note: The above addition is recommended since Addition 1161 (S-1161) was revised to end at S. C. Route 412 (old ending point S. C. Route 81). This also eliminates an overlap on S. C. Route 412. This is the result of the construction under File 4.150A.

Laurens County

982 ✓ Frontage road for U.S. Route 25 from a point 0.09 mile north of the Greenwood County Line (the Saluda River) westerly and northerly to end - approximately 0.38 mile  
To be designated S-982

Note: The above description is recommended to show the frontage road for U. S. Route 25 as constructed by File 24/30.474.

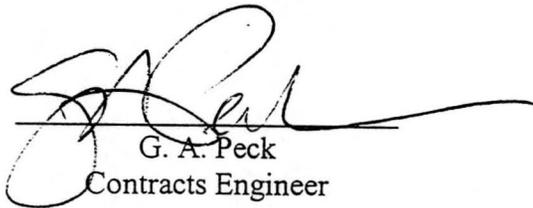

South Carolina  
Department of Transportation

July 1, 2003

MEMORANDUM TO: D. H. Freeman, State Highway Engineer

The recommendation to award the contract for SC File No. 01.2000.1 in the Highway Letting of May 13, 2003, is hereby revised. The recommendation to award the contract to the low bidder was part of the Recommendation Memorandum dated June 11, 2003; however, the award was subject to the approval of the Abbeville CTC, which has chosen not to approve the award. The recommendation is now changed to rejection of all bids on the contract.

Summary and bid tabulation is attached.

G. A. Peck  
Contracts Engineer

July 1, 2003

**REVISION TO RECOMMENDATION DATED JUNE 11, 2003**

The following contract in the Highway Letting of May 13, 2003, was previously recommended for award to the low bidder subject to the approval of the Abbeville County Transportation Committee. The previous recommendation dated June 11, 2003 is rescinded. It is now recommended to reject the contract.

## RESOLUTION

REQUESTING THE SOUTH CAROLINA STATE BUDGET AND CONTROL BOARD TO ISSUE NOT EXCEEDING TWO MILLION TWO HUNDRED THOUSAND DOLLARS (\$2,200,000) AGGREGATE PRINCIPAL AMOUNT OF GENERAL OBLIGATION STATE HIGHWAY BONDS PURSUANT TO THE PROVISIONS OF TITLE 57, CHAPTER 11, ARTICLE 3 OF THE CODE OF LAWS OF SOUTH CAROLINA 1976, AS AMENDED.

### Section 1. Authorization.

The submission of this request to the South Carolina State Budget and Control Board (the "State Board") for the issuance of General Obligation State Highway Bonds is authorized by the provisions of Section 57-11-220 of the Code of Laws of South Carolina 1976, as amended.

### Section 2. Reason For Request For General Obligation State Highway Bonds To Be Issued.

The Richland County Transportation Committee ("Richland County") filed an application, attached hereto as Exhibit A, with the Commission (the "Commission") of the Department of Transportation (the "Department") on March 10, 2003 requesting the issuance of \$2,200,000 aggregate principal amount of state highway bonds as provided in Section 12-28-2740 of the Code of Laws of South Carolina 1976, as amended. The proceeds of these bonds will be expended to expedite the improvement to state maintained roads in Richland County. The Commission approved Richland County's application on May 22, 2003.

It is now necessary and in the interest of Richland County and the Commission to request the State Board to issue not exceeding Two Million Two Hundred Thousand Dollars (\$2,200,000) aggregate principal amount of General Obligation State Highway Bonds (the "Bonds"), the proceeds of which will be expended to expedite the improvement of state maintained roads in Richland County.

### Section 3. Tentative Time Schedule During Which the Proceeds of the General Obligation State Highway Bonds will be expended.

The South Carolina Department of Transportation expects all of the proceeds of the General Obligation State Highway Bonds to be expended by September, 2005.

### Section 4. Annual Principal and Interest Requirements for all Outstanding State Highway Bonds.

Attached hereto as Exhibit C is a debt service table showing the annual principal and interest requirements for all general obligation state highway bonds outstanding as of July 2, 2003.

### Section 5. Revenues Derived from each Source of Revenue during the fiscal years ended June 30, 2002 and June 30, 2003.

The amount of revenues derived from each of the sources of revenue (the "Sources of Revenue") as defined in Section 57-11-210 of the Code of Laws of South Carolina 1976, as amended, will not be known until September, 2003 when the Comptroller General issues his preliminary report.

However, attached hereto as Exhibit D is a table setting forth the amount of revenues derived from each of the Sources of Revenue during the fiscal year ended June 30, 2002

It is expected that the Sources of Revenue for the fiscal year ended June 30, 2003 will be sufficient to permit the issuance of the Bonds.

Section 6. Revenues Estimated to be Derived from the Sources of Revenue in Future Years.

Attached hereto as Exhibit E is a table setting forth amounts estimated by the Commission which will be derived from the Sources of Revenue during the fiscal year ending June 30, 2003 and the next ensuing fiscal years during which the Bonds are expected to be outstanding. The Sources of Revenue for the fiscal year ending June 30, 2003 and the next five fiscal years thereafter are estimated to not increase more than five percent (5%) above the actual sums derived from the Sources of Revenue in the preceding fiscal year. During the sixth and subsequent fiscal years it is estimated that revenues derived from the Sources of Revenue will not increase over the revenues derived from the Sources of Revenue during the fifth succeeding fiscal year following the last completed fiscal year.

Section 7. Estimated Debt Service on the Bonds Requested Hereby.

Attached hereto as Exhibit F is a table setting forth the principal and interest requirements on all General Obligation State Highway Bonds outstanding as of July 2, 2003 and the Bonds, at an estimated annual rate of interest of five percent (5%).

Section 8. Request to issue the Proposed Bonds.

The Commission hereby formally requests the State Board to issue not exceeding \$2,200,000 General Obligation State Highway Bonds, the proceeds of which will be expended to expedite the improvements to state maintained roads in Richland County.

Section 9. Request Authorized and Directed to be filed with the State Board.

The Secretary to the Commission is hereby authorized and directed to file a certified copy of this resolution with Secretary of the State Board within 15 days of its adoption.

Section 10. Effective Date of Resolution.

This Resolution shall become effective upon its adoption.

COMMISSION OF THE DEPARTMENT  
OF TRANSPORTATION

ATTEST:

\_\_\_\_\_  
Secretary

\_\_\_\_\_  
Chairman

This Resolution adopted this 24<sup>th</sup> day of July, 2003.

RICHLAND COUNTY TRANSPORTATION COMMITTEE

March 10, 2003

Ms. Elizabeth Mabry, Executive Director  
South Carolina Department of Transportation  
P. O. Box 191  
Columbia, South Carolina 29202

Mr. Randall D. Williamson, PE  
"C" Program Engineer  
South Carolina Department of Transportation  
P. O. Box 191  
Columbia, South Carolina 29202

Dear Ms. Mabry and Mr. Williamson:

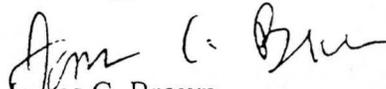

Enclosed please find the Richland County Transportation Committee's application for \$2,200,000.00 in bond funds pursuant to SC Code 57-11-220.

The intent of the Richland County Transportation Committee is to set aside appropriate funds from its annual "C" Fund allocation to repay the principal and interest over a period of fifteen (15) years.

The purpose of this bond is to generate proceeds as a source of revenue to expedite improvement for reconstruction and resurfacing of a state road 200 in Richland County.

Should you have questions concerning this matter please contact me at (803) 576-1906.

Sincerely,

  
James C. Brown  
Chairman

WHEREAS, in order to expedite the improvement of state and county maintained roads in Richland County, and

NOW, THEREFORE, BE IT RESOLVED, that the Richland County Transportation Committee request that the South Carolina Department of Transportation Commission issue \$2,200,000 in state highway bonds in accordance with Code of Laws of the State of South Carolina.

Richland County South Carolina  
10<sup>th</sup> day of March, 2003

James C. Brown, Chairman  
Richland County Transportation Committee

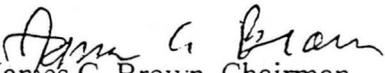

# RICHLAND COUNTY TRANSPORTATION COMMITTEE

## RICHLAND COUNTY BOND REQUEST

The members of Richland County Transportation Committee have requested that the South Carolina Department of Transportation pursue and manage the issuance of \$2,200,000.00 in bonds. This bond fund will provide the necessary finance to expedite improvements of Rosewood Drive (SC-200) from Bluff Road (SC-48) to the future river road adjacent to the Congaree River. The bond funds are to be repaid by the Richland County Transportation Committee with a set-a-side of its annual "C" Fund allocation which will repay the principal and interest over a period of fifteen (15) years.

This improvement project consists of reconstruction of the defined section of Rosewood Drive. RCTC received, discussed and approved this project as a priority to fund for the benefit of serving the public. South Carolina Department of Transportation personnel are involved with aspects of the project. This will ensure compliance to SCDOT requirements.

Richland County Government and RCTC held several meetings with discussions on best opportunities to secure bond funds in a timely manner and will allow for completion of the reconstruction in the near future. Through these discussions emerged an understanding of agreements for parties involved.

  
James C. Brown, Chairman  
Richland County Transportation Committee

## Office of the County Administrator

1/29/03

James C. Brown, Chairman  
Richland County Transportation Committee  
1701 Main Street, Suite 409  
Columbia, SC 29202

Re: Rosewood Drive Project

Dear Mr. Brown:

At its meetings of October 2, 2001 and May 28, 2002, the Richland County Transportation Committee approved funding of debt service payments in the amount of approximately \$200,000 per year for a bond issue for the reconstruction and resurfacing of Rosewood Drive from SC Highway 48 to the Vulcan Materials' property. This is to advise you that it is Richland County's intent to proceed with construction of the project at this time. It is, therefore, respectfully requested that the Transportation Committee proceed with the issuance of construction bonds in the amount of \$2,200,000 for this project and authorize payments for the debt service from the County's "C" fund allocation over a period of 15 years.

Please be assured that the County Council and Administration of Richland County sincerely appreciate the Transportation Committee's cooperation and assistance in implementing this project. If you have any questions or need assistance in any way, please do not hesitate to contact either this office or the County Engineer at 576-2412.

Sincerely:

A handwritten signature in cursive script that reads "T. Cary McSwain".

T. Cary McSwain  
County Administrator

Randy Williamson, SCDOT

## Description of Project

The project includes the reconstruction of 0.87 miles of Rosewood Drive (SC-200) from Bluff Road (SC-48) to the future River Road adjacent to the Congaree River.

The 2,640-foot section of the project from Bluff Road (SC-48) to the existing CSX Railway will include resurfacing of the existing 24-foot wide road and the addition of 2-foot wide shoulders on each side.

The shoulders will be constructed of 6" asphalt aggregate base course to match existing grade. This entire section and 2-foot shoulders will be resurfaced with the following pavement section:

Asphalt Aggregate Base Course	6" Uniform
Asphalt Concrete Binder Course	250 psy SUPERPAVE (19mm)
Asphalt Concrete Surface Course	175 psy SUPERPAVE (12.5mm)

The 1,875-foot section from the existing CSX Railway to River Road will require additional remedial action due to an existing landfill (the old City of Columbia dump) beneath this area. The landfill is capped with an approximate 8-foot layer of soil.

The additional remedial action will include undercutting this section to an elevation approximately 4 feet lower than the existing ground elevation. A geogrid (Tensar BX1200 or equivalent) will then be placed over the subgrade of the undercut area and structural fill will be compacted over the geogrid.

Once this section is brought to grade with structural fill, the following pavement section will be used:

Graded Aggregate Base Course	8" Uniform
Asphalt Aggregate Base Course	6" Uniform
Asphalt Concrete Binder Course	250 psy SUPERPAVE (19mm)
Asphalt Concrete Surface Course	175 psy SUPERPAVE (12.5mm)

The pavement sections were designed for a 10-year design life in accordance with the American Association of State Highway and Transportation Officials (AASHTO) Guide for Design of Pavement Structures and the South Carolina Department of Transportation (SCDOT) standards. The average daily traffic (ADT) used to calculate the pavement sections is as follows:

Vulcan Materials	700 tandem-axle trucks
Sloan Construction Company	175 tandem-axle trucks
Consolidated Systems	100 tractor-trailers
Allied Materials	50 tractor-trailers
Remaining Rosewood Businesses	10% additional tractor-trailers

In addition, some intersection improvements are planned for the southwest portion of the intersection of Rosewood Drive (SC-200) and Bluff Road (SC-48). The storage for the right turn lane on Rosewood Drive will be increased to 200 feet and the storage for the left turn lane will be increased to 150 feet.

All construction activities will occur within existing right-of-way. No additional right-of-way will be obtained for the project.

### **Impact On "C" Funds**

The annual allocation of "C" Funds for the Richland County Transportation Committee (CTC) from the County Transportation Fund is approximately \$3.6 million. The CTC has approved the programming of approximately \$200,000 per year to support the debt service on a bond for \$2.2 million for the reconstruction of Rosewood Drive.

The \$200,000 per year is approximately 5½ percent of the CTC's yearly allocation. Therefore, the impact on current and future "C" Projects will be minimal.

### **Impact and Benefits to the County**

The benefits of improving Rosewood Drive from Bluff Road to River Road are numerous. It would allow the truck traffic from the Vulcan Materials quarry to exit the quarry without driving through the Olympia community, which would improve the quality of life for Olympia residents. It would also allow for the redevelopment of the Olympia Mill building, which is eligible for the National Register. This building, along with the Granby Mill and surrounding structures, would be more appealing to a developer if not surrounded by the noise, dust, and danger to pedestrians that the truck traffic poses. The County would also like to help redevelop the community and preserve the historic homes and buildings located there, for the sake of historic preservation and for the purpose of economic development.

The quarry truck traffic currently uses residential streets in Olympia to exit the quarry. The trucks line up beginning at approximately 4:00 AM on the residential streets and the noise disturbs residents' sleep. Because the trucks have been using residential streets that were not built to withstand the use of heavy truck traffic, the streets have eroded into dirt, thus creating large amounts of dust. The levels of dust have created concerns about public health, particularly for children, the elderly, and those with respiratory illnesses such as asthma.

This redirection of traffic would also benefit the trucks because the new portion of Rosewood would be built to withstand this type of traffic. Trucks would have a smooth paved surface rather than an eroded one with potholes.

Olympia is a historic community dating from the 1890s. The County is interested in preserving the homes and the mills for future generations. The Olympia Mill was the largest cotton mill under one roof in the world when it was built in 1899. According to a

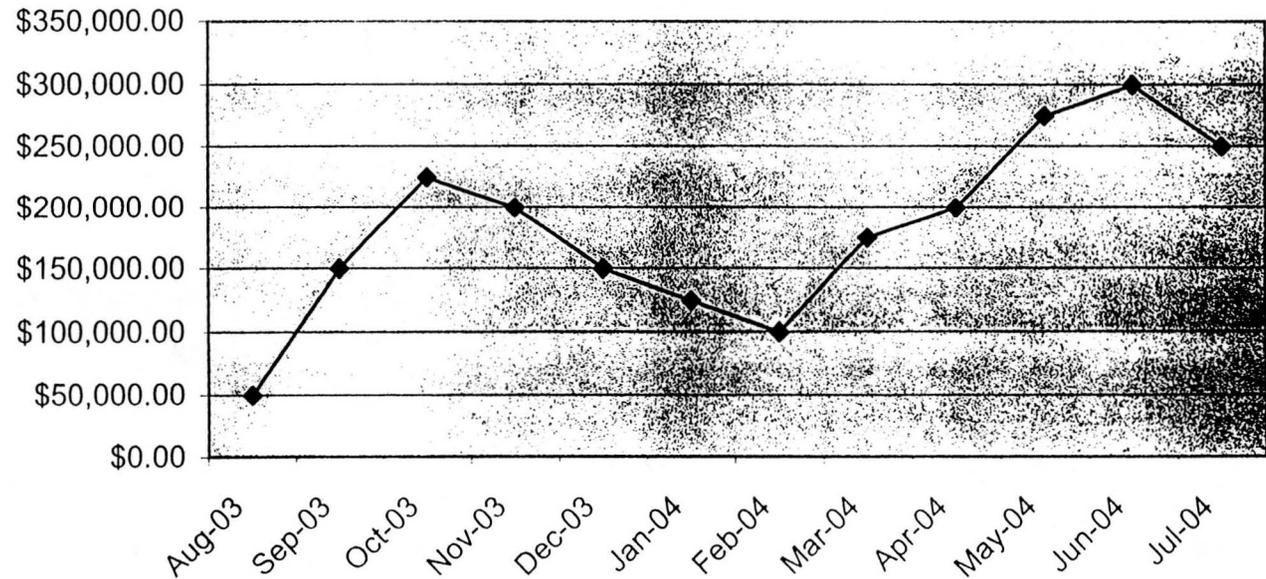

study conducted by Edwards-Pitman Environmental, Inc. in 2002, the building is "one of the most architecturally outstanding early twentieth century industrial buildings in South Carolina." The report goes on to say that the Olympia Mill Village retains a "remarkable level of integrity" in that it "maintains architectural cohesion and its streetscapes, layout, design, and feeling are all intact. Olympia Mill Village is a complete unit with churches, commercial buildings, houses and the mill, and as such it is worthy as a whole for inclusion on the National Register of Historic Places."

The County would also like to see the community developed for purposes of economic development. This idea coordinates with the plans of the River Alliance, a non-profit group whose mission is to connect people to the rivers, making them accessible and yet protected, and brings the rivers back into the daily lives of area residents and visitors. The River Alliance's master plan is the Three Rivers Greenway project, which promotes downtown residential infill and increases the tax base by providing river-related recreation and tourism centered in the downtown area. The redevelopment of the mill buildings and the elimination of the truck traffic from the community will greatly enhance property values and the quality of life for those who live there, and create additional opportunities for housing and commercial activity.

An agreement with Vulcan Materials has been reached which includes the construction of River Road, a road on the Vulcan Materials property, and its connection with Rosewood Drive. River Road is 6200 feet long. The County has chosen Rosewood Drive as an exit point because it is an industrial boulevard and is suited for this type of activity.

Once the construction of River Road is complete, Vulcan Materials, as part of their air quality permit with SC Department of Health and Environmental Control, will employ the use of wheel washes and road sprays to further reduce dust from the trucks. In addition, the County will retain the services of an environmental consultant to monitor air quality before, during, and after construction.

# RESOLUTION

**WHEREAS**, L. Morgan Martin graduated from Francis Marion College in 1975; and the University of South Carolina Law School in 1978; and

**WHEREAS**, he has served as an Assistant Solicitor and Deputy Solicitor; and began his private practice in Conway in 1988; and

**WHEREAS**, he was Chairman of the Horry County Democratic Party from 1984-86; and

**WHEREAS**, he served in the South Carolina House of Representatives from 1990-96, and Chairman of the Criminal Laws Sub-Committee; and

**WHEREAS**, he received an honorary Doctor of Humanities from Frances Marion University in 2000; and

**WHEREAS**, he was appointed by Governor James H. Hodges as Chairman of the South Carolina Department of Transportation Commission in 1999; and

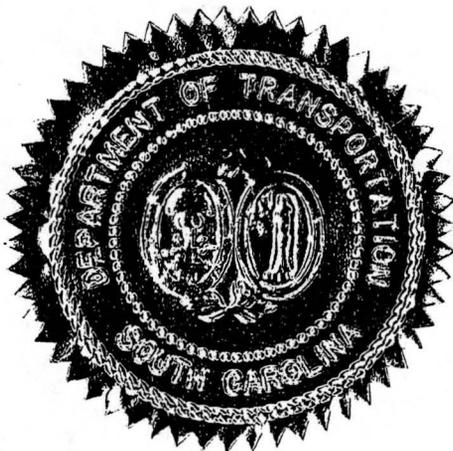

**WHEREAS**, as Chairman two major road projects in Horry County were completed, the Conway Bypass and the Carolina Bays Parkway; and

**WHEREAS**, he has worked tirelessly improving the services of the transportation department; and

**WHEREAS**, he is married to Sonya Joy Hardee and has 3 children, Mary Ashley, Morgan O'Bryan, and Hayley Elizabeth; and

**WHEREAS**, he has served his community and state in numerous other capacities, including as a member of the State Infrastructure Bank board.

**NOW, THEREFORE, BE IT RESOLVED** by the South Carolina Transportation Commission, in meeting duly assembled this 27th day of June 2003, that the interchange of SC 22 (Veteran's Highway) and US 501 in Horry County be named the "L. Morgan Martin Interchange" in recognition of his service to the state of South Carolina.
