Dear Governor Haley:

Whether you are an atheist, agnostic, Christian, Muslim or member of any other of various religious faiths, you have to acknowledge that the world is in a perilous time and there is evil among us. In the land of the Bible alone it has come to pass that the devil has surfaced in the guise of the terrorist and the world is being tested. And how each of us defines what is the Devil and Evil might vary, however none of us can deny that it exists. ISSI is barbaric and perpetrate atrocities on innocent civilians and they are evil in nature and unacceptable in humanity. They have openly stated they are out to change the world and attack Europe and America.

Understanding that although democracy is the best system in the world it has however allowed people to become self- absorbing which has allowed evil to raise its ugly head and with our being absorbed in decadent ways it has allowed the terrorist to advance their evil... so will we once again become concerned citizens of the world and return to what is morally correct and prevail in ways that will destroy this evil? Unfortunately we have transmitted to ISSI and all terrorist groups throughout the region the belief that we have become complacent, that we are no longer interested in the rest of the world.

History is repeating itself. In the 30s Hitler organized, like ISSI, a military organization that eliminated millions of people in Europe, and many of them died a horrible death, like now, because the world did not want to get involved! It seems that after enough generations have passed people start repeating history, and usually in the most egregious ways. Because the Devil has raised his ugly head again it is important that world history be taught to all students starting in elementary school and extending throughout high school so that hopefully this does not continue to happen in the future. And we must be vigilant that the history taught is true history and not what some professor wants students to believe by writing a book that distorts reality.

If we allow the terrorist to eliminate one culture after another they will eventually reach out to you knowing at this time you are complacent and are of the opinion it doesn't concern you. While the evil is allowed to exist no country and their citizens are safe from attack.

Everyone needs to be aware of the danger that is coming! It is time to stand up and be counted before it's too late. We appeal to you to pass this article on to others as well as discuss what might be ahead for us.
