Marcia and Jeff,

I checked with NGA and it's fine if you both call in and are in listen only mode with your phone on mute. Staff won't be allowed to participate in any way other than Gov. Pawlenty possibly asking David Quam with NGA for some background information. Attached is an options table that they will be working off of. Of particular importance is the waiver section, we need to access if the Governor would be alright with us sending a letter to DHS detailing the high level of security on our drivers licenses and be offered a waiver by DHS without actually requesting one, and get the Secretary's word that DHS would not try to spin that letter as us intending to comply with REAL ID. Let me know,

Blair
