## South Carolina's Premiere Hunting, Fishing and Outdoor Show

Pursuit Channel's

Come visit the Final Draw cast in booth 309-310 of the Cantey Building

Everything that we do is centered on three principles: God, family, and working all year for that one Final Draw. The average American outdoorsman has little or no chance of taking a 190 inch trophy whitetail, or landing a 175 pound tarpon in their lifetime. It is the preparation and persistence of the journey that makes the outdoorsman – not the trophy on the wall. Final Draw is based in the Piedmont of North Carolina, but hunting season takes us all over North America.

Our team grew up hunting, fishing, camping, and taking advantage of all that God's creation has to offer. We don't always tag out, and sometimes we fall victim to bad shots or nerves, but the hunt lies in the preparation and not the product. We know what it takes to go from setting trail cameras, patterning and planting food plots, to hanging stands and spending hours waiting for the perfect moment to pull that string back to your cheek and settle the pin. This is Final Draw: The American Outdoor Experience.

A must see... The Extreme Raptors Show is a premium wildlife production, featuring birds of prey like you've never seen them before. Eagles, hawks, falcons and owls are cleared for takeoff!! Audiences will witness the beauty of these predators, as master falconers guide the way.

Come visit our fishing pond!

# South Carolina's Conservation Districts

Conservation districts are subdivisions of state government under the local direction of a five-member Board of Commissioners. Three are elected in General Election and two are appointed by the S.C. Department of Natural Resources Board. These commissioners volunteer their time and services to help improve natural resources. There are 46 conservation districts in South Carolina. Districts conform to county boundaries.

The commissioners direct the efforts of a staff of conservation professionals who provide technical, educational and professional services to protect the natural resources of the district. The conservation district works in conjunction with staff from the S.C. Department of Natural Resources and the USDA-Natural Resources Conservation Service for greater effectiveness.

To Report Wildlife, Fishing, or Boating Violations

If you witness any wildlife, fishing, or boating violations, or have information about such a violation, immediately dial the toll free OGT number 1-800-922-5431, 24 hours a day, seven days a week.

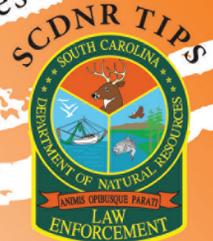

Or you may submit anonymous tips to SCDNR TIPS using tip411. tip411 is an internet based tool that enables the public to text anonymous tips to SCDNR law enforcement, creating an anonymous two-way conversation. Anyone with a cell phone may send an anonymous tip by texting SCDNR, followed by a space and the message, to 847411 (tip411).

Or download the free SCDNR Tips smartphone App free via the Google Play Store and iTunes App Store. Links are also available to anonymously submit tips via the SCDNR website and Facebook page. Be prepared to give the fullest possible account of the incident including the name, address, age and description of the suspect, vehicle description, direction of travel, license number, type of violation and when and where it occurred. You do not have to give your name.

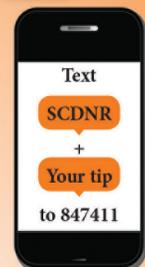

Call OGT 1-800-922-5431, 24 hours a day, seven days a week.

We can't tell you everything that's in old No. 9 but we can tell you that it is a vinegar based sauce that is hand-crafted, made in small batches and tastes great on almost anything! Our No. 9 sauce has a really distinctive flavor that really brings out the best in beef, pork, lamb, fish, chicken, or whatever you put on the grill – even vegetables! Come taste what is starting to be a sensation.

IT'S THE PERFECT COMPLIMENT

Are you satisfied with 2 ½ and 3 ½ year old bucks?

**How are those sixteen inch and eight point rules working for you?**

If any of the rounds fired on your property result in misses or a hit but unrecovered deer, you have a problem that needs to be corrected. If more than five percent of your antlerless deer tags are used on mistake button bucks, you have another problem that needs correcting.
