Dear Lt Governor Bryant:

Thank you for taking the time to read this email. I have recently begun work as the volunteer coordinator for a candidate campaigning to become SC Secretary of State. While I have previously held this position with national political parties and local campaigns, I am in the process of ordering supplies for volunteers for this statewide campaign and am unsure how many to expect. I consider anyone willing to keep a stack of fliers or stickers at their business (within the bounds of campaign laws) to be a volunteer. Would you be willing to share a rough estimate of the number of volunteers who helped with your campaign? I appreciate your time and consideration!

Sincerely,

Elizabeth Brooks
