Nicole,

I don't have anything from today yet. However she went on a helicopter tour of damage yesterday in Columbia.

You may use these photos taken by one of the governor's staff members, photo credit: Becca Schimsa.

In image Image1 the governor is surveying damage over Forest Acres.

In Image2 the governor and General Livingston are surveying crop damage in Richland County.

AP photographer Chuck Burton accompanied the governor and Gen. Livingston on this yesterday's flight so you can feel free to pull photos from the wire as well.

Thanks and let me know if there is anything else you need.

Hi there,

I hear that Gov. Haley took an aerial tour today, and I was hoping there might be visuals available? Photos or vid?

If so, where might I find those images?

Thank you,

*Nicole Underwood*
