**South Carolina State Parks**

at 16:26:13 on 7/26/2011 UTC · 🌐

Volunteers, Park Staff, and SCDNR staff completed the SC Oyster Reef Enhancement project at Hunting Island. Over 500 hundred bags of oysters were placed to form another oyster reef. Our oyster reefs are "Above Average" for success in South Carolina. Thanks to great habitat and water quality, we can keep the oyster population going strong at Hunting Island State Park.

**Christine M Moody** would of loved to help with this...i love hunting island, its my "close to home vacation" any time we get a chance to go, we are there, rain or shine we enjoy our time there!

**Jeremie Owens** Thats awesome!

at 17:25:49 on 7/26/2011 UTC

**Robyn Simmons Harris** H.I. My sanctuary & favorite place! Been camping there since I was a kid & my own in diapers! Just wish I was close enough to have helped out! Thanks for helping keep her going! Will see soon!
