Subject: Fwd: Response to complaint from lawyers and owners of Brittain Resort Corporation

How and why do our politicians just sit back and do or say nothing after being fully educated and presented all the facts on corruption and abuse to our tax payers . Nothing good will come from this for any of us. I wi continue to do

more than my part will full

Page ads , TV spots , direct mail and lawsuits . Thanks

Skip,

I have sent it to Will at Fits and your friends Rick and Peter. Who else in Media needs to get this?

To: Matthew R. Magee, Thomas & Brittain Law Firm

To: Clay Brittain III, Owner Brittain Resort Corporation; Partner - Thomas & Brittain Law Firm

Matthew and Clay,

We are in receipt of the attached, your client's Cease and Desist letter to Daniel Friedman resulting from his desire to personally rent his unit 952 Coral Beach that he rightfully purchased and owns. Please let Coral Beach Resort Management Corporation know of this response.

As our company and HomeAway.com have worked diligently to create 'true' market options for families who have made by far the highest investments in Myrtle Beach, it is with sadness that I see the limits to which your law firm and your corporation's partners have gone to **lock** these individuals into your own expensive and marginally performing property management corporate concerns. These condo owners have invested far more in these resorts and our city than either Brittain Resort Corporation or Coral Beach Resort Management Corporation or any other such property management corporation for that matter.

However, as you know, these condo owners can neither vote, nor do they have now the "pooled monies" to invest in political campaigns. They are also not highly connected in powerful area political associations, like the Myrtle Beach Area Chamber of Commerce. These people have simply made the critical purchases that allow our town to operate and

provide an income for your Corporate Concerns.

As such, I do agree that it is imperative that each condo owner across the nation know of your many rights as they currently exist:

- **Your Rights** to own the GOOGLE MAPS listing for each resort property, even though in most cases your corporations own few of the units you rent in each resort location.
- **Your Rights** to sell the unit to each condo owner, and then LOCK these into your rental program, based on the power of that Google Maps Listing.
- **Your Rights** to make it hard for each condo owner's own cleaning helpers to be on site.
- **Your Rights** to also own the Home Owner's Association for each resort, nicholing and diming each homeowner as you go.
- **Your Rights** to fill the Home Owner's Association Board with your own families, own employees and own associates.
- **Your Rights** to sell the units in the facility to condo owners and then not allow their guests to use the ammenities at that resort.
- AND FINALLY, **your Rights** to trademark a building that you have little of your own money invested in.

Seeing as to how you feel strongly about your own trademarked rights, yet Brittain Resort Corporation has refused ongoing to honor our such requests, we have included Brad Dean in this email. Your Coral Beach Corporation and Brittain Resort Corporate managers serve in high positions on this Myrtle Beach Area Chamber Board and it is this Chamber that is currently challenging **Myrtle Beach Hotels®** own private trademark rights in court, after our many requests to Brittain Resort Corporation to discontinue using the Myrtle Beach Hotels' trademarked name. As of our call this morning, your corporation continues to answer its toll free lines using our name, Myrtle Beach Hotels, when you are certainly aware that you are not that firm. As **Myrtle Beach Hotels®** is the number one searched brand name in Myrtle Beach vacations, providing returns to condo owners at the highest rate in our market, we can certainly see why your company would want to trade on the brand tourists prefer, regardless of how legal doing so might be.

Apparently, Brittain Resort Corporation's understanding of the laws are the ones that work best for them and their clients.

Finally, it is just this such heavy handed approach to our hospitality business that is bringing about a Myrtle Beach Peoples' Rally being held this August 8th and 9th of which we are told 4,000 condo owners will attend. As such we have also copied this email to Skip Hoagland of **StopChamberAbuse.com** and **Tammy Dabbs of the Myrtle Beach Peoples' Rally**. We would ask that they have every condo owner call all other condo owners about this matter so that they can all know **YOUR** rights and "get involved."

We give them our full permission to send this letter to all 60,000 area condo owners, every local real estate agency and others looking to invest in an area condo so that they may know of your many, many corporate rights.

P.S. Being a 'Rent Assit" brand like **HomeAway.com** and **VRBO.com**, we feel it is also imperative to copy Brian Sharples on this email.

Sincerely,

David Hucks
