Subject: Re: Beaufort Website Pricing

---

John , thanks for this rate card info on your for profit media website. This email is to inform you and your entire staff and board that you are in violation of IRS 501-c6 tax codes of the USA as drafted and written. You are also in violation of your own mission statement and in unfair business , trade and competitive practices with your Media members and those media companies who would join as a business member seeking support and help from this local business organization . Also what needs to be understood is how and why you bid this job out to a Myrtle Beach company versus a local company ? I repeat and will keep repeating that Chambers should not be in any business for profit and should simply operate under a budget from members dues , fund raisers and tax monies. Their website should be a member benefit and informational only website with video , pictures and directory of all members not a site that sells ads for profit and drains local ad dollars and competes and attempts to put local media in the ad sales business out of business . Please be advised all this could have future damage claims and become a class action media lawsuit locally , state wide and nationwide . Please note I am also fully aware of the fact Beaufort Chamber does not have the same abuses as the Hilton Head Chamber , infact each Chamber has its own unique abuses and by having Chambers and CVBs separated and also subject to complete Foia request will end many abuses I have identified with the Hilton Head Chamber as an example on [Stopchamberabuse.com](http://Stopchamberabuse.com). I launched this site so others across America can identify and stop abuses like we have in Hilton Head like 400k pay packages , proposed 600 pet sq ft welcome centers , taking our tax monies to Canada, excessive abusive expenses and travel for chamber employees . Thanks

Note -Charleston, Myrtle Beach to name a few are also in violation .

Rob please forward this on to our representative at IRS to go on record for our case and future lawsuits . Thanks
