Subject: reports of out-of-state buses in Greenville

Katherine:

Received a call yesterday from someone locally that travels down White Horse Road in Greenville County very frequently because of his job. He's not the typical "outraged-type" that calls when he observes something unusual. However, he has noticed more than a couple of bus loads of Mexicans departing buses with Texas plates at the same location on White Horse Road.

He has noticed the same buses heading back down I-85 empty. He was curious if the we "the state" was aware of what appears to be a rather large contingent of foreign folks being moved into the area. I told him that I was aware that the Governor has expressed her concerns to the Administration, particularly about being notified if bus loads of undocumented persons were being brought into the state.

Do we have any information that indicates numbers of out-of-state persons, undocumented or otherwise, are being transported into our area?

Many thanks! Happy New Year!

Larry
