---

## The Convention, Sports, & Entertainment Facilities Conference is Coming to San Diego on May 16-17, 2019

Join more than 650 government and industry leaders, project owners, CVB officials, economic development agencies, developers, and AEC professionals for two days dedicated to project delivery.

If you're planning your next procurement and want to better understand how partnerships and alternative delivery can be used for your upcoming convention center, conference center, headquarters hotel, stadium/arena, or entertainment district venue, you'll want to attend.

The Convention, Sports, & Entertainment Facilities Conference ("CSEF") invites industry and local governments/public agencies for project delivery education and incredible networking opportunities

Discover new project opportunities and find solutions for your next local economic development projects. Register today and save \$400.

## The Premier Education and Networking Event for Owners, Developers, and Operators Involved In:

Communities across the country have seen recent success in developing partnerships to deliver convention centers, sports venues and entertainment facilities to stimulate their local economies and improve the quality of life for their community.

Whether public agencies, private developers, or a public-private venture is formed to undertake these economic developments, careful planning is required for successful implementation.

Join us at the 2019 Convention, Sports, & Entertainment Facilities Conference ("CSEF") for two days on the latest modes of project delivery solutions and strategies for economic development facility planning.

To be included in event updates, receive presentations, and connect with delegates, please visit our website and register to stay informed.

## 2019 Program & Agenda Preview

[Keynotes](#) | [Panel Discussions](#) | [Roundtables & Workshops](#) | [Networking Events](#)

Our agenda will focus on recent examples of convention, sports, and entertainment facility developments in the U.S., examine economic development infrastructure challenges faced nationwide; and how innovations in project delivery, procurement, life-cycle asset management, and technology can help solve them.

This year's program explores innovative partnership approaches with a specific emphasis on procurement, proper risk allocation, financing, planning, design, construction, and operations.

Our sessions are designed to help attendees explore partnerships and alternative delivery methods, steps for planning and procuring successful project initiatives, selecting and negotiating with prospective public and private sector partners, and highlighting best practices and lessons learned to ensure project success.

## Who Attends?

[Local Governments](#) | [Convention & Visitor Bureaus](#) | [Economic Development Agencies](#) | [Developers](#) | [A/E/C professionals](#) | [Universities](#) | [Sports Leagues and Franchises](#)

The Conference is a part of P3C, which delivers some of the largest infrastructure focused events in the country and attracts public leaders, project managers, industry executives, and development experts.

Our attendees include senior management from firms in the construction, engineering, design, legal, investment and consulting industries as well as senior administrators from state and local governments, convention and visitor's bureaus, universities, sports leagues and franchises, economic development agencies from across the nation.

The Conference is a must-attend for those who want to stay current on project delivery trends, meet owners, developers, operators, sports leagues and franchises, universities and government leaders in the U.S., and network with development experts who have helped shape policy and navigated partnerships from concept to completion.

Our audience of industry leaders provides a unique opportunity to network with experts, owners, and prospective partners in a development focused forum.

Thank you to the partners below who sponsor and attend P3C events year round:
