Dear Billy Adams, ,

I talk to Kennie Riely about coming back to work. In 2010 I got hurt and need surgery.

I come out of work on disability retirement, so when I talk to Kennie Reily he tells me that whoever got hurt or goes out in 2006 can't come back to work.

There is no letter saying this or anything written down as in the Law to the effective of the Law of Constitution Rights.

Now this is a right to work state, so that means that I can come back to work and if the Board of Union Companies, Pension and Union Lawyer can vote that in for 2006.

I feel it is my right to be reinstated back to work and keep my Classification Gen membership and seniority.

I want to thank you for your time and effort in this matter.

Edward Bess
