Good moring Leigh,

SCBIO officials, President Wayne Roper and Board member Sam Konduras, would be available to meet with Christian Soura Wed, Thursday, or Friday of next week (Oct 17, 18, or 19) to talk about Personalized Medicine and SCBIO. Is Christian available at any point during those three days?

Thanks so much Leigh!

John

Hi John, can you send over a few dates for us to look at Christian's schedule in regard to scheduling a meeting on this issue? I don't believe we'll need further information on the proclamation request. Leanna, is there a timeframe we can give John on when a decision will be made on this request?

Thank you,  
Leigh

Subject: Personalized Medicine Day

Leigh,

I forgot to mention that...

- The largest health systems in the state are supportive of this initiative and day, including GHS/ITOR, Spartanburg through Gibbs Cancer Center, and Bon Secours, St. Francis....and, Greenwood Genetic Center – which receives some state disability funding for its work.
- Personalized Medicine has broad interest as health systems use genetic panels or tests to improve outcomes. The broad support for our event indicates that as well.

Many thanks Leigh!
