Keller is great. Please thank him and let's remind everyone that they have offered up their resources to help. That's very valuable help in times like this.

Hey! A blast from the past. You know you cannot work a major storm without me! Tell the Governor that I appreciate her support so very much. The quick recovery we had on the electric side was in direct relation to her being an advocate for my crews through all of the curfews and logistics. Because of her support, I am now turning my equipment and operating personnel loose to fight back the water. I have my large crane truck at Beaver Creek Dam placing sand bags and we are supporting the efforts on the Columbia Canal. If you need any updates on any of these activities first hand, my number is 331-8609. Tell the governor's staff that we are here to help on other things now that power is back to normal for the most part. I am a phone call away. Keller Kissam, President, SCE&G
