Tony

In an attempt to update our procurement file I reviewed the AAA/ADRC minutes since December 2012 to see if there was any verbiage related to extending our contracts until the end of the calendar year. If you recall you decided to delay procurement until July 2013 because of the changes in the Policies and Procedures Manual. In delaying procurement it was also discussed that current contracts would be extended to give AAA/ADRC an opportunity to procure etc. Please confirm.
