Hi, my name is Mitchell Willetts, I'm a reporter with The State news in Columbia. I just saw your post about opossums and how they glow pink under UV light, and I'm intrigued. First, could I have permission to use the photo for a story, with credit to SC State Parks? Also, is there someone on staff I could speak with about opossums and their biofluorescence? Either a phone number or email is fine. Please get back to me when you can. Thanks!
