Subject: Off-shore drilling

Hello Governor Haley,

I am a part-time resident of Mount Pleasant, SC and was wondering if you could give me an update on where you stand in regard to off-shore drilling in this state and if you are you contemplating supporting the COAST Anti-Drilling Act.

We all remember the environmental devastation an oil spill can cause.

I know that NJ and other northern states are vehemently opposed to this idea and for good reason.

I hope this will not again be a North/South split.

Thank you and I am looking forward to your response, Monika Bonn-Miller My phone #, just in case:
(610) 857-9875
