Subject: Senatorial Appointment

Attachments: Nikki Haley Senator.doc

---

Katherine,

Attached is my request to be appointed United States Senator. I assure you that I am the most uniquely qualified and best informed candidate and will serve as great ambassador to the United States for the Great State of South Carolina and for the general welfare of the United States. An appointed senator is what the founder intended to represent states in congress, South Carolina nor any other state has a valid representative of their state. Please give serious thought to this request. The governor will have a chance to be a cut above normal politics as she has in the past.

Sincerely,

Kenneth F. Waggoner, jr.
