Governor Haley, I need your help. I have a grandson that is handicapped and is having some health problems and the problem I have is getting his family doctor to write a referral slip to see a specialist. They act like there's not anything wrong with him, I can tell when something is bothering him, his mother died when he was very small and he has lived with me since he was 4 yrs old, I've been through a lot getting him through school with a certificate. He's now 32 yrs old in spite of some illness' along the way. Right now what I want is for the doctor's to give me a referral slip so I can take him to a specialist, For about 2 months his stomach and groin have hurt, the doctor did a colonoscopy and it is fine, he has had 2 hernia surgeries. When he hurts there's a problem somewhere, I've had him long enough to know that.

I hope you can help
