  - We told them we would have follow up meeting with them to discuss more specifics based on their feedback and follow ups with Molly.
- Senate and House Legislative Receptions
  - We cancelled the original Senate reception date for November 5.
  - Potential new dates are Oct 26 or Oct 29 - because these dates are 2 weeks away should we push for a later date or cancel the receptions all together?

### REFUGEES RESETTLEMENT PROGRAM:

- There are 23 legislators who have asked for information about the Refugee Resettlement Program.
- Attached is the draft Q&A about the Refugee Resettlement Program. DSS has signed off on it.
- Are we able to send this information to the legislators?

### Legislative feedback:

- Special Session – what are thoughts? Do we need the money?

- Infrastructure bill
- Supplemental Bill
- There is chatter out there about gov comments....“How FEMA is fantastic” and “all people will be taken of...”
- Philosophical beliefs about FEMA - roads, dams, state buildings etc.
  - – She’s not going to give away money who aren’t eligible? FEMA should love her...she’s rebranding FEMA – for sure. We are not going to pay for people who didn’t have flood insurance and could have?
- Hope we can capitalize Secretary Hall’s leadership in efforts to pass a restricting bill for DOT – that might be the only way with the LAC report, Leatherman, and with the lack of interest to pass
