Why does governor not want to meet with SRS folks?

So I heard tonight Savannah River Remediation - largest contractor at Site - has been asking since August for 15 minutes. Delayed because of flood. That's understandable. They were told in last few weeks that she couldn't find time on schedule. They said they can do it after primary. They were told no time on schedule, but staff would come meet with them. They just want 15 minutes, and they'll come to Columbia

I just heard about this tonight, or I would have talked with you already.

They apparently talked with Haley and Nicole. Young talked with Haley, too. The response they're getting back is not a Haley response; it's higher than that.

They employ over 1000 in Aiken. And they hosted a fundraiser in Aiken for her reelection campaign. If there's some reason she doesn't want to meet with them (or if someone up there is shielding her from them for some reason ), let me know.
