Subject: DMV Data for Employment Security Commission

I met with Gwen Green on Friday to discuss the request by the Employment Security Commission to receive select DMV data (DL number, SSN, Address and any other data that would help verify a persons identity).

According to the DDPA, we can provide this data to the Employment Sec. Comm. if they sign the DMV DPPA agreement and an associated waiver that states the data provided will only be as good as the data we collect.

The next step is to determine how often they want the data, the cost of the data and the method of transmission.

If no one has any problems with this, I will get with Darl later this week and contact ESC to finalize plans.
