We're still promoting our Atalaya artists! I'm always looking for unique, functional gifts! And here's some awesome pottery by Teresa Bowen and Clay Gallery. Teresa Bowen has been a professional potter since 1978 and has learned, over time, how to develop and create high-quality, functional work. She enjoys adding a personal touch to the pottery, whenever possible. Purchase some of Teresa's pottery, here: <http://www.clay-gallery.com/>

Diana Marie I'm confused. I assumed this link was for a local artist, but the studio is in Florida. Can you please clarify?

South Carolina State Parks Diana Marie this is for our virtual Atalaya Festival. We have this festival each year, but we couldn't have it in person this year. We are featuring all artists who applied to the festival, online. Anyone can apply, not just artists for S.C.
