**Subject:** Thank You!

Nikki,

I wanted to take a minute to personally "Thank You" for your vote and your support. Becca and I are so grateful for all of you who volunteered your time, put a sign in your yard, or wrote me a note of encouragement. We are especially grateful that you put your trust in me with your vote.

I don't take that trust you have bestowed in me lightly. Like you, I believe we can restore faith in the American Dream by embracing common sense conservative solutions that place individual responsibility and personal freedom above government-driven solutions. Because of your support, I will work to bring a forward-moving, conservative reform agenda that respects the proper role of government and promotes individual liberty and economic prosperity for everyone, not just the privileged few.

What we need today are leaders who have a steadfast commitment to conservative principles, fresh solutions to today's challenges, and a willingness to stand up to entrenched interests. With your faith and support, I will continue fighting to work to change the way Washington works. And it's because of you that this movement will continue onward.

Thank you for standing with me. May God bless you and your family.

Thank you,

Raúl
