Dear Gov. I don't know if I should be writing to you, but I don't know who to write to I have a very close friend in Trenton he has been there since 2011. he doesn't get out until Nov.2016 he has lost both parents within a year apart and he was at a work release in lower Savannah and about a month ago he was accused of stealing they moved him back to Trenton and the charges were dropped and he wanting to go back to a work release. so I called to get his update for him and the lady I spoke told me that she was NOT sending him back to a work release. but there was another inmate as of last week had a drug charge on him and his was dropped and she let him go back to a work release program. And I don't think its right cause my friend is white and the other guy was black. my friend has been out of trouble and they wont let him go back to work so what im asking you is could you please help him in anyway if you can his inmate number is 00257142. with his work that he was doing he was working for like 8-9 months and doing rral good for himself and saving a little money to buy his stuff to live on. so plz help him thanks
