Thanks for your response. I was worried when I saw the grade. I am glad to know that things are OK. If there are any problems, just let me know, and I will take care of it.

Thanks,
Marcia Adams

I haven't entered many grades so far this 9 weeks, so his grade is not really accurate. I have one quiz grade to enter and they just took a test yesterday. That will definitely change his average. Please let me know if you have any questions. Thanks, Diane

Ms. Schiferl,
My son, Alex Adams, is a student in your Spanish I class. He has maintained good grades in your class all year, and I am very concerned to see that he has a 67 average. This is not like Alex at all. I viewed his grades on Intouch and did not see any bad test or homework grades. Has he not completed assignments? He was absent for several days due to illness, but it was my understanding that he had completed missed assignments. Please let me know, and I will immediately take care of any issues he is having in your class.

Thanks,
Marcia Adams
