These are all great questions for Clark, who will call you to set up a meeting. :)

Keep in mind, the 15% isn't that much, comparatively speaking.

Is there something else you're looking at for the 10% Gov's Discretionary for? And, DEW could identify that money to be used for SCWRC and it not be a Gov's directive. We've used those funds for other things when it's not been designated for a Gov's initiative.

Happy Thursday! Have a great weekend and I'll be talking to you! Send me your new contact information next week. Too funny!

EK

Was looking at this passage from the attached document someone emailed me:

#### PAY FOR SUCCESS IN WIOA

WIOA augments the Pay for Success provisions of the bill beyond what was included or considered in the individual House and Senate WIA bills, including:

1. Restoring states overall portion of formula funds to 15% - for the past three years, the portion of WIA annual formula funding (which totaled \$2.6 billion in FY 14 across three funding streams) allotted for state WIA activities had been reduced by appropriators to 5-10% of overall funding. WIOA restores states' allotment to 15% of all three WIA formula funding streams, allowing Governors to have significantly more funding for innovative statewide activities. States could use such funds for Pay for Success approaches.

I haven't had a chance to really look at the WIOA reauthorization stuff in the past few weeks with everything else that's been going on, so I haven't checked in on the details. Thought I'd run this by you in case there's an opportunity here, though – thanks.

WIOA doesn't address WP appropriations. There is no verbiage that changes the 90%/10% split in WP state allotments. WIOA does seem to add verbiage that allows the 10% funds to be used for "models for enhancing professional development and career advancement opportunities of State agency staff". In total, WP funds were decreased in PY'14 from PY'13 by \$76,780 – a .84% decrease (\$9,156,659 to \$9,079,879). From PY'12 to PY'13, we took a 6.42% cut (\$628,556). We will not know the PY'15 allotment until next spring. Not sure why they would think funding has increased.
