Subject: Requested Information for Kevin from Brent Murdock

Dear Catherine,

The best way I think Kevin could help us in our effort to close George Brock road which bisects our research farm in Anderson County would seem to be to ask him to solicit a letter of support from Hugh Weathers, the Commissioner of Agriculture. Mr. Weathers department slogan is "South Carolina Grown". Well, in our case, he could be supporting "South Carolina BRED and Grown"!!

We also have some letters of support coming from families with whose children we work, detailing how work with our research farm has contributed to their maturation and development, has given them funding and job training. This condition increases our need to ensure security for our workers as well as our research.

Would it be possible for Kevin to contact Anderson County Council as he did two years ago as a senator in support of this road closure from the viewpoint of economic development in South Carolina?

Thanks for any help you can give us.

Best regards,

Brent Murdock
