Subject: Special Event Management Seminar; Terrorism Alert

Governor Nikki Haley

This past week, the Department of Homeland security issued an advisory about threats to Special Event venues. This advisory informed law enforcement to put their best security practices into effect in order to provide the safest and most secure event possible.

The research, planning and deployment of law enforcement personnel to provide a safe and successful event requires specialized knowledge in a variety of fields designed specifically for the Management of Special Events.

Taught by law enforcement and security professionals, ***Special Event Safety Seminars*** are experts in the field of Planning, Research, Security, Staffing, Risk and Liability, Crowd Psychology, Active Shooter/Suicide Bombers at Special Events and much more.

Since 1998, ***Special Event Safety Seminars*** has trained over 2,700 personnel from over 750 law enforcement agencies and organizations from 46 states, Canada, Hong Kong, New Zealand, Puerto Rico and the District of Columbia with proven and outstanding results. We are the original and only company in North America that provides this training.

Please visit our detailed web site for more information on this important three-day workshop. Please learn what you need to know to make sure your special event is as safe, secure and liability free as possible.

Our next scheduled classes are:

- July 28-30, 2015 | San Diego, CA (70% full)
- October 6-8, 2015 | Fort Lauderdale, FL
- December 2-4, 2015 | San Diego, CA
