**We are reporting crimes being committed by the original Obama joint chief staff; What do you expect their response to be?**

The Chinese are now setting up troops and chemical weapons for an invasion on Great Britain's sovereignty land, just like they did to the U.S.A. mainland, and Brazil, and Australia, etc. Thanks to Obama and his lying original joint chief staff.

The original 2010 joint chief staff are ordering at this time, 5-1-2014, the special forces to explode four Chinese nuclear weapons in four U.S.A. military bases, to appease the Chinese; But the Chinese do not know about it, at this time, the Chinese are not yet done preparing to invade all of Europe. The original joint chief staff is doing it to start the war, to avoid prosecution for treason and other crimes. But the Chinese are going to get the blame. **After the joint chief staffs first failed attempt they told the Chinese that war with the U.S.A. is now urgent or all weapons will be lost.**

The Chinese have nuclear weapons in all of our cities and in all of our military bases, compliments of Obama and his original joint chief staff.

Obama and his original joint chief staff say that they will not let the Chinese blow them up. But every time that the Chinese indicated that they were going to blow them up, all that Obama and his original joint chief staff did was hit the shelters and leave the country. And that is all that they did, or plan to do.

God stopped them from blowing them up. And God says that he will not stop them much longer, and that a worldwide nuclear war is imminent.

We either arrest Obama and his original joint chief staff and dismantle all of these nuclear weapons; Or we wait until God gets tired of telling us what we need to do and lets the Chinese blow us all up.

It is just that simple. **They will keep trying until they are arrested.**

Either arrest them and relieve them of duty or else the U.S.A. will lose ninety percent more of its population and military if they remain in power.

We need to prayerfully ask God: What do we need to do? How do you need us to do it? When do you need us to do it? Then all that we have to do, is do it, God will help us.

If we don't do what God says to do, we and our families will all end up dead, or in the worst possible conditions.

The military under Obama and his original joint chief staff plan to let the Chinese just blow us all away.
