---

H. 3560 hasn't been scheduled for a subcommittee or committee meeting; this is generally the trigger for us to review a bill. There's a comparable bill in the Senate that has a little more traction that we can discuss with you. It's on our list to get a little more clarity with her as to her position.

Subject: House bill 3560, 'Boland Bill'

Rob,

Has the Governor been able to review the bill that was first introduced on February 19?  
Has she taken a position on it? Would she sign it if it came across her desk?

Thanks very much for your time.
