Rev Up Your Network—and Your Agency

<http://hughesbusiness.hughes.com/rs/hughesnet2/images/franchise2-divider.jpg>

Dear Nikki,

Is your agency struggling to provide your branch locations with **sufficient network bandwidth and speed to support today's applications**? Then look no further than Hughes High-Capacity Access <http://pages.myhughessolutions.com/z0Zk0uj0001MFfp2V9S0A00>, a robust HughesON™ network service that delivers **high performance—up to 12 Mbps network speeds—even to remote offices**.

Up to **8x faster than standard T1s**, Hughes High Capacity Access employs the most **cost-effective broadband available at each branch location**—whether fiber, cable, or DSL. Plus, for DSL sites, Hughes employs its innovative ActiveBonding technology to **intelligently combine multiple DSL links into a single high-capacity connection**, giving each application access to the full combined capacity.

Better Performance for Bandwidth-Hungry Applications

- Bonds multiple links for 12+ Mbps connectivity at field sites

- Greater reach than Ethernet—not dependent on Central Office upgrades
- Can deploy at all locations
- Innovative approach eliminates cost and complexity of appliances
- Cost-effective both on a \$/bandwidth basis and in terms of total cost

Agencies Need Broadband Today — Why Wait for NS2020?
