We will approach the reservation agent to see if your ideas can be implemented. Also, we will address your concerns with regional management over the Dreher Island staff. Thank you for bringing these matters to our attention.

the state park is great the group that is running this park is terrible...the website for booking the sc state parks is the worst..the website will not let me ad an extra night because itsays that i have to book atleast 7 days from June 30th. i am already booked for 8 days, fix your website, then i call the office and they tell me i have to call the day that i want to add. i had this problem last year also...a 10 year old could design a better website. also the rangers do not make people park on their site... people park in the road...and only will move if the ranger gets a complaint. next to impossible to get a camper in on the weekend if you dont get ranger to move to idiots off the road... fix the website, cut the trees that damage peoples camper and tow the jerks that park in the roaddo your job

Dreher island state park..is the one this month but the website is for all of the state parks...they need to cut some trees to prevent damage to rvs and they need to have the rangers ride the roads and make sure people are not parking In the road and for heavens sake fix the website
