The bill faces a steep uphill climb in the Senate. Ten senators, from across SC, currently have their names on the bill. Governor McMaster also has said that he will not support it. A lot will have to change for it to become law.

What are the odds it will pass?. I'm sure Charleston, Columbia, Myrtle Beach areas will support it? Can it make it into law?

Please see my thoughts in this editorial below. I will oppose a gas tax hike!

You promised me last year you wouldn't support a gas tax hike, and you didn't.

Good job.

Now here we are again. And they want to double the maximum sales tax on vehicles.

I expect you to hold the line on this again this year as well and vote NO.

Regards,

Mitchell Spann
