

Governor Haley,

11/30/16

Hello Governor Haley my name is Ruby Hill and my husband William Hill Sr died on Feb 26th of this year. my husband and I both recieve social Security so we paid our bills together and now that he's gone I am having a hard time surviving. My husband worked all those years for his social security and now I'm being told that I am not eligible to recieve his benefits, and I am confused as to why. They told me that the only thing that I can do is recieve the same amount as my husband so they added 100.00 to my benefits to equal what my husband was recieving. Why can I not recieve my husband's benefits that he worked for all those years. Every since my husband died I have really been struggling. I am not eligible for housing or any type of assistance. My rent is 540, my light bill is 175, my water bill is between 75-100 sometimes and I have to buy food. I cannot afford to live at all. I really need your help. I cannot survive alone without my husband's income and I cannot seem to get any help. I really need help because I cannot afford my bills any longer.
