

December 15,2015

Dear Governor Haley,

I am a concerned citizen of Yemassee South Carolina. Please allow me to address some issues that we are having within our town. It is not running fair on a daily basic. Our town is based on hatred. We the people know this. The town council changed the form of government back in March. Due to the changing of the form of government, our Mayor doesnt have any say so about how to control the town of Yemassee. The Mayor power is completely gone. Whats a town without a major. This is a sad case for us The people who voted the changed really didnt know what was happening until it was too late. On November 3,2015, our town had a reelection . This wasnt successful either because people voted who have been living out this town for many many years. Our town is going down because people running it the way they want to and hurting the ones that care. We have no idea whats going to happened next. We have a town judge that goes out with some town concil members as long as some police officers. We feel like this is againts section codes and we the people have a problem with this. As a concerned citizen it would be greatly appreciated if you could help us out on theses issues. Our next step is having the state take over.

Thank you,

A concerned citizen
