Subject: Fwd: the rigging gets more ominous...

Friends,

You may have seen this before but had forgotten about it. In case you missed it or have friends that do not understand what all the fuss is about with the Clinton Foundation it states what is known.

ED

Charles Krauthammer on Hillary Clinton:

Recently, Charles

Krauthammer alluded that he had no doubt some of the 30k e-mails Hillary deleted from her private e-mail server very likely had References to the Clinton Foundation, which would

be illegal and a conflict of interest. The Clinton Foundation is "organized crime" at its finest. Here is a good, concise summary of how the Clinton Foundation works as a tax free international money laundering scheme. It may eventually prove

to be the largest political criminal enterprise in U.S.

History.

This is a textbook case on

how you hide foreign money sent to you and repackage it to be

used for your own purposes. All tax free.

Here's how it works:

- 1. You create a separate foreign "charity." In this case, the Clintons set it up in Canada.**
- 2. Foreign oligarchs and governments, then donate to this Canadian charity. In this case, over 1,000 did – contributing mega millions. I'm sure they did this out**

of the goodness of their hearts, and expected nothing in return. (Imagine Putin's buddies waking up one morning and just deciding to send untold millions to a Canadian charity)

3. The Canadian charity then bundles these separate donations and makes a massive donation to the Clinton Foundation.

4. The Clinton Foundation and the cooperating Canadian charity claim Canadian law prohibits the identification of individual donors.

5. The Clinton Foundation then "spends" some of this money for legitimate good works programs. Unfortunately, experts believe this is on the order of 10%. Much of the balance goes to enrich the Clintons, pay salaries to untold numbers of hangers on, and fund lavish travel, etc. Again, virtually tax free, which means you and I are subsidizing it.

6. The Clinton Foundation, with access to the world's best accountants, somehow fails to report much of this on their tax filings. They discover these "clerical errors" and begin the process of re-filing 5 years of tax returns.

7. Net result – foreign money goes into the Clinton's pockets tax free and untraceable back to the original donor. This is the textbook

**definition of money
laundering. Oh, by the way, the Canadian
"charity" includes as
a principal one Frank Giustra. Google
him. He is the guy who
was central to the formation of Uranium
One, the Canadian
company that somehow acquired
massive U.S. Uranium interests
and then sold them to an organization
controlled by Russia.
This transaction required U.S. State
Department approval, and
guess who was Secretary of State when
the approval was
granted.**

**As an aside, imagine how
former Virginia Governor Bob McDonnell
feels. That poor schlep
was in jail because he and his wife took
\$165,000 in Gifts and
loans for doing minor favors for a guy
promoting a vitamin
Company. Not legal but not exactly
putting U.S. Security at risk.**

**Sarcasm aside, if you're
still not persuaded this was a cleverly
structured way to get
unidentified foreign money to the
Clintons, ask yourself this:
Why did these foreign interests funnel
money through a
Canadian charity? Why not donate
directly to the Clinton
Foundation? Better yet, why not donate
money directly to the**

people, organizations and countries in need?

This is the essence of money laundering and influence peddling.

Now you know why Hillary's destruction of 30,000 e-mails was a risk she was willing to take. Bill and Hillary are unprincipled, dishonest and Slick!

Warning: They could be back in the White House in January 2017. Don't let it happen.

Remember, most people are not well informed.
