**Subject:** Special Theme Edition: Smart payments for smart cities

---

[Click here](#) to view this message in a browser window.

Want to be a big star with your constituents? Make it easy to **pay for city services**. Smart payments brought Chicago's **transit systems** together. And **money hubs** were a big lifesaver for typhoon victims.

Now you're caught up,  
Jesse

**Don't miss your chance to win a Readiness Challenge Grant.** We're still accepting applications for the Smart Cities Council Readiness Challenge Grant. Five U.S. cities will win grants offering custom help and supporting technology to become more livable, workable and sustainable in 2017. The deadline is December 31.

**Smart payment technologies (and why they help smart cities deliver on their promise).** Cost-effectiveness and efficiency are essential for smart cities to run smoothly and provide the level of service citizens expect. Read our story to learn how smart payment technologies can help ensure those undertakings are successful.

**How smart payments make Chicago's transit systems work as one.** For commuters, what really matters is getting to their destination. See how smart payments have made it much easier to travel in Chicago, even if a trip involves several transit agencies.

**How mobile money hubs helped typhoon survivors recover.** After a typhoon devastated the island of Leyte in the Philippines, a collaboration between Qualcomm Wireless Reach and Hapinoy enabled micro-entrepreneurs to offer mobile money services from roadside shops to help rebuild the local economy. Learn more in a brief video.

**Partner Spotlight: News for Oracle, Ameresco, Sensus, Daimler, Enel and more.** Oracle's \$1.4B computer science education investment... a new water contract for Sensus... Schneider Electric's new IoT solution... Ameresco's solar canopy project... Daimler's big spend on EVs. Click the links for details.

**Learn How to Be a SCC Partner**
