**Subject:** Cummins Allison: Process tax payments fast like Lake County

---

Process tax payments faster and better. [Learn more.](#) | [View in Browser](#)

You know how important it is to re-evaluate your office so you can continue improving how you serve your community. Trying to collect more than \$2.2 billion in property taxes proved to be inefficient and error-prone for Lake County Illinois Chief Deputy Treasurer Don Schneider, so he looked for a better way to process tax payments. He needed something fast and accurate to reduce processing time and avoid discrepancies with the bank.

### **JetScan iFX® scanners help reduce costs**

Schneider found Cummins Allison's JetScan iFX check and currency scanner. His office now scans checks and deposits them electronically to the bank through its remote deposit capture interface to access to funds quicker, reduce processing time, and avoid discrepancies with the bank. On the same machine, staff also quickly count cash, letting tax payers pay their bills in person quickly and accurately and stand in shorter lines.

**See how Don Schneider uses JetScan iFX scanners to improve payment processing to serve the county better.**

Lake County isn't the only tax office using JetScan iFX scanners. See how Whitfield County Tax Commissioner Danny Sane uses JetScan iFX scanners as a part of continually cutting costs.
