You hopefully have received the video, but will it be possible for him to stop by early and just shake some hands? He's got to be at the Citadel at Noon. Thanks

DV

I am told .mov or QuickTime file would work.

Thanks.

Danny – we are still working on the program but anticipate it to be heavy on federal involvement/ Corps, etc.

We are working on a video to highlight folks who played a key role in the life of the project. Would the Lt. Governor be willing to send us a clip to be included in the video?

Information is below:

Good afternoon,

We would like to thank you for your role in getting the Charleston Harbor Deepening Project to this point. This month the project begins construction to 52 feet. To mark this historic event, we are having a celebration on March 2 with all of the individuals who played a critical part in keeping this project moving forward. We recognize it took a very expansive group of people to get to the point where we are now, and we would like to include as many of those individuals in a video to mark the momentous occasion.

Due to the time constraints of an event, we ask that you please send us a brief 10 second clip offering a word of encouragement, congratulations, how you played a role in moving the project forward (i.e. sent a letter or made a call) or how the project will impact you.

If you have video capabilities within your company, I am happy to work with the appropriate person on your staff to discuss details. If you don't have video capability, please let me know and we can schedule for me to come film the video message.

For the video, we ask that you please look directly into the camera when speaking. Also, please use a professional video camera and not a cellphone video, unless your cellphone shoots video in 4K.

Please submit all video messages by noon on Friday, February 23. If you have any questions, please reach out to Tate Zeigler at tzeigler@scspa.com or Kelsi Childress at kchildress@scspa.com or (843)577-8676. All videos can be emailed as well.

Thank you!
