

South Carolina Department of Transportation

2001-2002 Annual Report

*Public Trust,
Earn It, Keep It!*

Contents

- Section 1: Annual Accomplishments**
- Section 2: 20-Year Needs for Planning, Construction, Maintenance, and Operation of the Highway System**
- Section 3: Coordination of State and Federal Programs for Mass Transportation**
- Section 4: Summary of Contract and Procurement Activity**

SCDOT Accomplishments

Section 1

SCDOT ACCOMPLISHMENTS

- SCDOT has been recognized in an independent study as one of the Top Three in the Nation for efficiency and productivity.
- We have partnered with the private sector and local governments to build trust and improve quality of life for all citizens.
- The Cooper River Bridge Replacement Project is underway - this project is the largest project in both cost and scope of work in SCDOT's history.
- Oversize/Overweight Permits Office (OSOW) now has Internet capability for customers.
- The Kershaw County Maintenance Office celebrated 1,500 consecutive days with no lost time for work-related accidents or illnesses.
- SCDOT received Honorable Mention Award from the Governor's First Step Program for having a "Family Friendly Workplace".
- Increased coverage by SCDOT's Motorist Assistance Program - "SHEP", State Highway Emergency Program.
- Awarding of 209 construction contracts.
- The "27-in-7 Program", an accelerated construction program using bonds, has reached its mid-point, on time and on budget.
- The Carolina Bays Parkway, a 20-mile, six-lane divided highway, opened in Horry County seven months ahead of schedule.
- SCDOT held its first-ever statewide conference on improving bicycle and pedestrian accommodations, attracting 385 people from across South Carolina.
- Ground was broken on the Bobby Jones Expressway, a four-lane divided highway from I-520 at the Georgia state line to US 1 in Aiken County.
- SCDOT helped launch an AMBER Alert Program, providing use overhead changeable signs and highway advisory radios to inform motorists of a law enforcement emergency.
- A 15-mile widening project along Interstate 85 in Anderson County was completed in just 18 months, improving safety and traffic flow.
- Traffic management expanded its use of cameras along interstate highways to assist in traffic management, with approximately 140 cameras now in operation.
- Newly installed median cable barriers prevented more than 1,500 vehicles from possibly crossing into oncoming traffic on interstate highways across the state.

- Construction began on the Cooper River Bridge Replacement Project - the largest project in terms of both cost and scope of work in SCDOT's history.
- SCDOT began the last project in a series of improvements to Interstate 77 from south of Rock Hill to the North Carolina state line.
- The SCDOT Commission approved federal enhancement funds in excess of \$6.6 million to help finance a total of 48 projects across South Carolina.
- Work began to improve a 10-mile portion Interstate 95 in Florence and Darlington counties, the first time this interstate has undergone a widening in South Carolina.
- Activated statewide Helpline to assist citizens during inclement weather conditions in and across the state.
- Initiate Vehicle Acquisition Programs across the state.
- Streamlined environmental procedures.
- Developed Financial Management System Program (FMSP).
- Continued leadership program, having 18 STTAR's and 21 STEP-21 participants.

PUBLIC TRUST: EARN IT, KEEP IT!

SCDOT Future Needs

FUTURE NEEDS

**South Carolina's Annual Highway Needs
Based on a 20-Year Program
(\$ in Billions)**

	20-Year Funding*	20-Year Needs	Total Shortfall	Annual Shortfall
Interstate	\$ 1.5	\$ 6.58	\$ 5.08	\$ 0.25
Bridge	1.36	2.95	1.59	0.08
System Upgrade	1.14	16.8	15.66	0.78
Resurfacing/ Safety/ Routine Maintenance	5.1	19.8	14.7	0.74

Coordination of State and Federal Programs for Mass Transit

Section 3

(Reporting requirements outlined in Section 57-3-760 Annual Report, request a five-year plan detailing the regulation of traffic which includes the administration and enforcement of traffic, driver, and motor vehicle laws and the coordination of Mass Transit between the departments, agencies, and other bodies in the State. Information pertaining to the administration and regulation of traffic is not applicable to functions and responsibilities of the Department of Transportation)

COORDINATION OF STATE AND FEDERAL PROGRAMS FOR MASS TRANSIT

SERVICE EXPANSIONS AND NEW OPERATIONS

Consolidation of Transportation Services: The Mass Transit Office is encouraging transit providers to consolidation similar transit services, where such effort provides for effective utilization of transit funds without reducing service. To this end, the Mass Transit Office has announced its intension to identify pilot areas throughout the state to start a demonstration project for the consolidation of transportation services.

Park and Ride Project: The Mass Transit Office has contracted with the Central Midland Council of Government to administer and facilitate the feasibility study and the implementation of a Park and Ride program in Columbia metropolitan area. If the program is successful, similar programs could be repeated in other metropolitan areas around the state.

Creation of the Central Midlands Regional Transportation Authority: The newly created Central Midlands Regional Transportation Authority has assumed the transit operational responsibilities to provide transit services in the Columbia metro area. South Carolina Electric and Gas Company previously performed the function.

TRANSIT VEHICLE ACQUISITION PROJECT

The objective of the program is to maximize use of congressional earmarks along with providing a financing option through the State Treasurer's Office in the absence of future earmarks. These initiatives along with placing large transit buses on state contract will assist each transit agency in acquiring much needed replacement vehicles.

In January 2003, the SCDOT began furnishing newly acquired transit vehicles to South Carolina public transportation providers. In September 2002, fifty-five (55) medium duty, 17 passenger, wheelchair lift equipped vehicles were ordered at a cost of \$2,761,189.00 dollars. As of January 9, 2003, SCDOT received 24 of the 55 vehicles ordered. The estimated delivery date of the remaining vehicles is February 1, 2003. The remaining 160 vehicles will be ordered beginning the first quarter of 2003 with a proposed delivery date of July 2003.

TRANSPORTATION COORDINATION

Aiken County Transit has been pleased to work with the City of North Augusta and the City of Augusta, Georgia to provide a connection to the Augusta Public Transit System. Aiken County Transit also

participates in the activities of the Lower Savannah RTMA. With the new connection to Augusta, the potential exists to offer service from Orangeburg to Augusta.

JOB ACCESS & REVERSE COMMUTE PROGRAM

The Job Access and Reverse Commute Program (JA&RC) is a Federal Transit Administration (FTA) Competitive Grant Program, authorized under Section 3037 of the Transportation Equity Act for the 21st Century. Job Access projects are designed to assist in transporting welfare recipients and low-income individuals to and from jobs and activities related to their employment. The first round of activities for SCDOT's statewide Job Access and Reverse Commute Program ended October 31, 2002. SCDSS provided the required 50% match for this initial round of funding.

The 50% matching funds for round two of the program were secured from the sources, and in the amounts, as listed below:

SCDOT	\$ 100,000
SCDSS	\$ 500,000
SC ENERGY OFFICE	\$ 250,000
LOCAL MATCH FROM NINE PARTICIPATING TRANSIT PROVIDERS	<u>\$ 538,455</u>
<u>TOTAL MATCH</u>	<u>\$1,388,455</u>

The \$1,388,455 of matching funds allowed SCDOT to leverage Job Access & Reverse Commute Program federal funding resulting in a total of **\$2,776,910** being available for second round Job Access and Reverse Commute Program activities. Cooperative Agreements between SCDOT/SCDSS and SCDOT/SCEO have been prepared and executed.

DBE RECRUITMENT & PARTICIPATION

Early in the fiscal year, assistance was sought from the general public transit providers in developing a Mass Transit "Bidder's List". They were asked to furnish the SCDOT with names and contact information on the firms and businesses they had been using for purchasing goods and services. (This list was then used as a "recruitment tool" by the SCDOT's DBE Development Office).

A DBE workshop was held on May 21-23, 2002 in North Charleston sponsored by the National Transit Institute (NTI). Attendance was open to all general public transit providers.

Out of a total of \$63,751 expended on mass transit technical assistance projects last year, approximately \$47,304 was spent with DBE firms for a participation rate of 74%.

The SCDOT exceeded its strategic goal of increasing the number of certified DBEs in highways and mass transit by 10% by May 2002. The SCDOT's updated (FY 2002-2003) goal and methodology for its DBE mass transit program, increasing its participation goal from 3% to 5%, was submitted to the FTA in September 2002.

A mandated (by USDOT) Unified Certification Program (UCP) for certifying DBEs by the SCDOT was completed and forwarded to the FHWA and FTA for review and approval. This was required to be submitted no later than March 4, 2002.

The SCDOT's DBE Technical Assistance Center continued to function in its Irmo location to familiarize firms and individuals interested in doing business with the Department with the DBE program and to provide them with business assistance and certification information.

GRANTEE TRAINING

Procurement Training Workshop - To learn the basics of the South Carolina Consolidated Procurement Code and how to spend Federal funds that have been obtained through the Grant Process with SCDOT Mass Transit. The course will cover the basics you need to know to spend funds at various dollar amounts, and how State laws are different from the Federal laws. The course will also give a brief overview of how to properly issue, rate and select an offeror through the RFP Process.

Vehicle Maintenance Management and Inspection (VMMI) Workshop - To train all service managers from around the state preventive maintenance.

Board/Managers Training - To assist board members in obtaining a greater understanding of their role, responsibility and duty in assisting a statewide transit agency.

TRANSIT RESEARCH ACTIVITIES

Additionally, SCDOT entered into an agreement with RLS & Associates, Inc. on November 1, 2001. The services to be provided involve the development and implementation of a cost allocation plan for all SC public transit providers. The scope of work includes reviewing each agency's management review, assessing cost allocation concerns, conducting site visits and providing on-call administrative assistance to ensure basic understanding of the plan. The contract period was for one year.

Wilbur Smith & Associates consulting firm has been selected to assist the Mass Transit Office in evaluating the performance data that it receives from transit providers. This project is expected to provide valuable information regarding the current rural funding formula, data verification options, and the display of transit data for public use.

SAFETY & SECURITY ISSUES

The U.S. intelligence community continues to receive general threat updates on such sectors as airline and maritime industries, government facilities, and ground transportation equipment and facilities. SCDOT urges all transit agencies throughout the state to take prudent steps to detect, disrupt, deter, and protect against possible threats against transit operations. To further this effort, Safety and Security Seminars were conducted on November 30, 2001 at the SCDOT Headquarters Building and February 5, 2002 at the Transportation Association of South Carolina Annual Meeting in Myrtle Beach.

SCDOT also requested and received assistance from the Federal Transit Administration (FTA) to conduct security reviews of our transit agencies throughout the state. FTA contracted the security-auditing firm of Milligan and Company to conduct the reviews at no cost to the state. The ten largest transit agencies in the state were selected to participate. A team of Milligan and Company associates, which included former transit managers, transit security experts, and former FBI counter-terrorism agents, visited each transit agency.

Milligan and Company provided each transit agency with a written report outlining security recommendations and best practices. Many agencies have begun to put these recommendations into action by developing safety and security plans and conducting employee awareness training using modules obtained from the SCDOT lending library. The South Carolina Department of Transportation is committed to pursuing future federal earmarks for security enhancements for each state transit agency.

PARTNERSHIPS & COLLABORATIVE EFFORTS

- ▶ South Carolina Department of Social Services participates in the Job Access and Reverse Commute Program
- ▶ South Carolina State Energy Office participates in the Job Access and Reverse Commute Program
- ▶ SCDOT works in partnership with the Waccamaw Regional Transportation Authority (Lymo) to complete a feasibility study for an elevated mass transit system in Myrtle Beach.
- ▶ The regional COGs and the MPO participate in the regular partnering meetings conducted by SCDOT.
- ▶ SCDOT worked with South Carolina State University to provide summer internships during FY 01-02.

TRANSIT DEVELOPMENT PLAN (TDP)

- ▶ Develop a statewide coordinated transit system among transit providers
- ▶ Develop and acquire scheduling and dispatch software for all transit providers
- ▶ Develop and implement electronic Grant Application and Management System SC-TEAM-Web statewide
- ▶ Preserve existing rail corridors for future high speed and commuter rail service and identify funding sources
- ▶ Increase safety and security on existing and future transit systems
- ▶ Improve and expand the multi-modal transportation system in South Carolina

FIVE-YEAR TRANSIT CAPITAL NEEDS (EXCLUDES HUMAN SERVICE TRANSPORTATION)

Five-Year Capital Needs Assessment	
Operation and Maintenance Facilities	\$33,000,000
Replacement of Transit Vehicles	\$48,551,000
New Starts/Expansion	\$15,000,000
Total Needs Assessment	\$96,551,000

Breakdown By Type of Need:

- ▶ 50% of needs to replace aging vehicles fleet
- ▶ 34% of needs for new operations/maintenance facilities
- ▶ 16% of needs for vehicles and facilities for new starts/expansion

20-YEAR LONG RANGE SOUTH CAROLINA TRANSPORTATION PLAN

The South Carolina Department of Transportation is conducting assessments to determine the growth needs of the current transportation providers that operate service in 34 of the 46 counties in the State. Current estimates indicate the vehicle replacement needs over the next 20-years will total over \$195 Million. This figure does not take into account service expansion, new starts and inflation. Further study will determine the future costs associated with expansion, facilities, and vehicle replacement to further the goal of a coordinated statewide transportation system.

Replacements	2003 \$s	2013	2023
15-Pass Vans (ADA)	\$30,000.00	\$5,550,000.00	\$11,100,000.00
17 Pass Cutaways	\$55,000.00	\$37,466,000.00	\$74,932,000.00
30ft Bus	\$195,000.00	\$585,000.00	\$1,170,000.00
35ft Bus	\$206,000.00	\$28,634,000.00	\$57,268,000.00
40ft Bus	\$210,000.00	\$16,590,000.00	\$33,180,000.00
Trolley	\$225,000.00	\$8,685,000.00	\$17,370,000.00
TOTAL	1128	2256	
TOTAL \$		\$97,510,000.00	\$195,020,000.00

Funding Plan

The SCDOT receives funding from the Federal Transit Administration (FTA) for Mass Transit activities through grants applied for by the Department. SCDOT also receives $\frac{1}{4}$ of one cent of the State gasoline tax (approximately \$6.0 million) and from the State General Fund (approximately \$0.4 million) annually. The total funding received allows the State to match federal dollars and provide transportation assistance. SCDOT/Mass Transit manages a number of funding programs available to transportation operators throughout the State. These programs support both public transportation and specialized transportation services:

- ▶ FTA Section 3037 – Job Access and Reverse Commute – This grant is used to provide new transit service to assist welfare recipients in getting to and from jobs and training.
- ▶ FTA Section 5303 – Metropolitan Planning – This program establishes a cooperative, continuous, and comprehensive framework for making transportation investment decisions in metropolitan areas.

- ▶ FTA Section 5307 – Urbanized Area Grant – Funding is made available to *designated recipients* that must be public bodies with the legal authority to receive and dispense Federal funds. Generally, a *transportation management area* is an urbanized area with a population of 200,000 or over. The Governor or Governor's designee is the designated recipient for urbanized areas between 50,000 and 200,000. SCDOT is the designate for South Carolina.
- ▶ FTA Section 5309 – Capital Assistance Grant – Funds to be used for mass transit capital projects only, such as bus purchases, computers, facilities upgrades and rail projects.
- ▶ FTA Section 5310 – These funds are used to assist private non-profit organizations in meeting the transit needs of the elderly and disabled population through vehicles purchases or purchase of service contracts with other transit providers.
- ▶ FTA Section 5311 – Rural Non-Urbanized Grant – These funds are used by transit agencies for administration, operations and capital in conjunction with providing rural transportation services.

- ▶ FTA Section 5313 – Statewide Planning and Research – This program provides support for national and statewide public transit studies and planning.
- ▶ FTA Section 5311b - Rural Transportation Assistance Program – Provides a source of funding to assist in implementing a training program and technical assistance tailored to meet the needs of transit agencies in non-urbanized areas.
- ▶ State Mass Transit Funds (SMTF) – The total funding received allows the State to match federal dollars and provide transportation assistance.

Federal Funding History

Program	FY 2000	FY 2001	FY 2002
Section 5303 MPO Planning	\$337,161	\$355,069	\$378,053
Section 5313b Statewide Planning	\$88,081	\$92,868	\$99,319

SCDOT

Contracts and Procurement

Section 4

SCDOT CONTRACTS AND PROCUREMENT

During the fiscal year 2001-2002, 183 road and bridge projects totaling \$309.75 million were accepted for state maintenance by the Department. This included 23 federal/state bridge projects for 6.95 miles totaling \$20.32 million; 36 state secondary projects for 419.94 miles totaling \$18.61 million; 6 interstate projects for 25.86 miles totaling \$21.66 million; 88 primary/urban projects for 604.47 miles totaling \$236.33 million, and 30 other (pavement marking, landscaping, resigning, etc.) for 5,960.99 miles totaling \$12.84 million.

Design and Engineering contracts totaled \$58.76 million.

Vendor Receipts totaled \$87.28 million.
