Is the new Edisto beach campground map posted? The one online looks like the old map. Thanks for your help!

The map you need to look at is the reservation map where you go in to make reservations.

Am I missing something with the new reservation system? How can I search by campsite size or site type (e.g., waterfront) either statewide or parkwide? Please help!

You may search for campsites by date, statewide, here:

But not by type or size? Is there a way to see pictures of sites?

Currently, you cannot search by type or size. If a site has a photo, you will see it when you click on the site from the reservation map. If you have more detailed questions or need more detailed information on campsites you may contact the park you are interested in, or our Reservation Desk at 1-866-345-7275 Monday thru Friday from 9:00am to 5pm. They will be glad to assist you.

The new system needs to change. It's much less convenient than the former system. Who do I contact to discuss these concerns? The reservation desk was no help.

You may contact our park central office at 803-734-0156. We are working constantly to offer improvements to the system.

Good evening! Why doesn't the online reservation system let you hold sites for a few minutes while typing in credit card information like before? When I tried to reserve a site just now right at midnight, I selected the site. I then entered all of my information (in less than 60 seconds). By the time I clicked submit, the site was gone/I was asked to reselect the site. In the old system, it wasn't a race to enter the information; when I selected the site, I had a few minutes to enter the information. Please fix this!

We have not received any word of evacuations at this time. Check with the park ranger at the park you are staying at for more info.
