**Attachments:** [Best Practices to Simplify Your Information Security and Compliance Program CTC.pdf](#)

---

This is a short presentation on Risk Assessment and the never ending reassessment of Risk management. We normally think of the data security but I also thought this could be applied to other Risk also and might be added to the area plans. Temperature of our Group Dining and Home delivered meals is one area. We might need to consider adding to the Area Plan update on security so items or suggesting requirements of Risk assessment and management in the contracts the PSA's execute with providers.

I enjoyed our discussion and the opportunity to present to you at the Carolina Technology Conference. A PDF of my presentation slides is attached. If I or TraceSecurity can be of any help in the future, please do not hesitate to call. A link to our website is included below.

Thank you,
